Butterworth,2021-07-19 Sport is a universal feature of global popular culture It shapes our identities affects our relationships and defines our communities It also influences our consumption habits represents our cultures and dramatizes our politics In other words sport is among the most prominent vehicles for communication available in daily life Nevertheless only recently has it begun to receive robust attention in the discipline of communication studies The handbook of Communication and Sport attends to the recent and rapid growth of scholarship in communication and media studies that features sport as a central site of inquiry The book attempts to capture

a full range of methods theories and topics that have come to define the subfield of communication and sport or sports communication. It does so by emphasizing four primary features. First, it foregrounds communication as central to the study of sport. This emphasis helps to distinguish the book from collections in related disciplines such as sociology and also points readers beyond media as the primary or only context for understanding the relationship between communication and sport. Thus, in addition to studies of media effects, mediatization, media framing, and more, readers will also engage with studies in interpersonal, intercultural, organizational, and rhetorical communication. Second, the handbook presents an array of methods, theories, and topics in the effort to chart a comprehensive landscape of communication and sport scholarship. Thus, readers will benefit from empirical, interpretive, and critical work, and they will also see studies drawing on varied texts and sites of inquiry. Third, the handbook of Communication and Sport includes a broad range of scholars from around the world. It is therefore neither European nor North American in its primary focus. In addition, the book includes contributors from commonly underrepresented regions in Asia, Africa, and South America. Fourth, the handbook aims to account for both historical trajectories and contemporary areas of interest. In this way, it covers the central topics, debates, and perspectives from the past and also suggests continued and emerging pathways for the future. Collectively, the handbook of Communication and Sport aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available.

Making the Web Work Bob Baxley, 2002. There are no other books that examine the effectiveness and benefits of having well designed and created web applications. This guide includes case studies that are well known, global, and emphasize the points and theories discussed. It covers all aspects involved of creating the effective application in concise and easy to understand ways.

The Economics of the National Football League Kevin G. Quinn, 2011-12-20. This book lays down a marker as to the state of economists' understanding of the National Football League (NFL) by assembling sophisticated critical surveys of, by leading sports economists, on major topics associated with the league. The book is divided into four parts. The first three chapters in Part I provide an overview of the business of the NFL from an economist's perspective. Part II is a collection of surveys of the economics of the NFL's most important revenue streams, including media, attendance, and merchandising. The NFL's labor economics is the focus of Part III, with chapters on player and coach labor markets, the draft, and contract structure. Part IV includes essays on competitive balance, gambling, economic impacts of the Super Bowl, behavioral economic issues associated with the league, and antitrust issues. This book will appeal to sports economists, sports management professionals, and policy makers and would be useful as a supplementary text for sports economics and management courses as well as a reference text.

Marketing in Creative Industries Gabriele Troilo, 2025-09-19. The challenges of delivering value in industries as diverse as music, tourism, visual arts, heritage, and cinema are different from those one might encounter in conventional commercial organisations. This textbook addresses the specific challenges of marketing in the creative industries and applies marketing theory to a wide range of international

examples Marketers in the creative industries create and deliver customer value through the experience of creativity The creativity of producers in these worlds artists curators athletes for example must be transformed into an experience for customers and consumers The link between creativity experience and value informs and distinguishes the author's marketing model a framework that gives students the analytical and decisional tools needed to succeed in careers in arts and cultural marketing This vibrant textbook combines an innovative perspective on customer value theory with practical marketing strategies and detailed case studies The text looks at a range of creative industries analysing their similarities and recommending a suitable managerial model for effective marketing Marketing in Creative Industries is an ideal textbook for undergraduate and postgraduate students taking modules in marketing for a specific creative cultural or arts context

Research Handbook on the Law of Artificial Intelligence Woodrow Barfield, Ugo Pagallo, 2018-12-28 The field of artificial intelligence AI has made tremendous advances in the last two decades but as smart as AI is now it is getting smarter and becoming more autonomous This raises a host of challenges to current legal doctrine including whether AI algorithms should count as speech whether AI should be regulated under antitrust and criminal law statutes and whether AI should be considered as an agent under agency law or be held responsible for injuries under tort law This book contains chapters from US and international law scholars on the role of law in an age of increasingly smart AI addressing these and other issues that are critical to the evolution of the field

The Power of Sports Michael Serazio, 2019-04-23 A provocative must read investigation that both appreciates the importance of and punctures the hype around big time contemporary American athletics In an increasingly secular fragmented and distracted culture nothing brings Americans together quite like sports On Sundays in September more families worship at the altar of the NFL than at any church This appeal which cuts across all demographic and ideological lines makes sports perhaps the last unifying mass ritual of our era with huge numbers of people all focused on the same thing at the same moment That timeless live quality impervious to DVR evoking ancient religious rites makes sports very powerful and very lucrative And the media spectacle around them is only getting bigger brighter and noisier from hot take journalism formats to the creeping infestation of advertising to social media celebrity schemes More importantly sports are sold as an oasis of community to a nation deeply divided They are escapist apolitical the only tie that binds In fact precisely because they appear allegedly above politics sports are able to smuggle potent messages about inequality patriotism labor and race to massive audiences And as the wider culture works through shifting gender roles and

masculine power those anxieties are also found in the experiences of female sports journalists athletes and fans and through the coverage of violence by and against male bodies Sports rather than being the one thing everyone can agree on perfectly encapsulate the roiling tensions of modern American life Michael Serazio maps and critiques the cultural production of today's lucrative ubiquitous sports landscape Through dozens of in depth interviews with leaders in sports media and journalism as well as in the business and marketing of sports The Power of Sports goes behind the scenes and tells a story of technological disruption commercial greed economic disparity military hawkishness and ideals of manhood In the end despite what our myths of escapism suggest Serazio holds up a mirror to sports and reveals the lived realities of the nation staring back at us
