This book explores the ways in which the lives and routines of a wide range of people across different parts of Europe and the wider world were structured and played out through everyday practices It focuses on the detail of individual lives and how these were shaped by spaces and places by movement and material culture both the buildings they occupied and the objects they used in their everyday lives Drawing on original research by a range of established and emerging scholars each chapter peers into the lives of people from various social groups as they went about their daily lives from citizens on the streets to aristocrats at home in their country houses and from the urban elite at leisure to seamen on board ships bound for the East Indies For all these people daily routines were important in structuring their lives giving them a rhythm that was knowable and meaningful in its temporal regularity be that daily weekly or seasonal So too were their everyday encounters and relationships with other people within and beyond the home these shaped their practices movements and identities and thus served to mould society in a broader sense *The Résumé of Life* Terry J. and inspirational The Rsum of Life celebrates the power of the spiritual world as well as the physical world It offers a guide to help you better understand yourself and your world *Everyday Acts of Design* Zoy Anastassakis, Marcos Martins, 2022-09-22 From 2016 2018 teachers and students at the State University of Rio de Janeiro in Brazil found themselves at the center of a crisis A new right wing government suspended payment of staff salaries and student scholarships and stopped funding basic maintenance *Everyday Acts of Design* tells the story of how the university s design school reacted to the crisis not with despondency or despair but by promoting a series of radical teaching experiments Working together students alumni teachers and staff embraced hope as a method demonstrating that it is possible to find positive answers even in a situation of imminent collapse The case histories narrated in the book provide alternatives to conventional forms of design teaching but also prove that education can be a site for democracy and the practice of freedom Deprived of the activity of creating for an imagined future design can still assert a way forward through practices of making and experimenting Drawing on their personal experience of designing and teaching design at a time of crisis the authors assert the value of a design attitude which in refusing to be delimited by the forethought of designing insists on a radical experimental practice as a means of survival Although a multitude of voices both assenting and dissenting are present in the text the authors do not hide their own position making it clear that their stories are not a balanced mosaic of polyphonic positions The contemporary attack on free public education fueled by the growth of far right regimes all over the globe relies on a totalizing univocal conception of truth as a means to shut down a plurality of thinking Against this this book adopts the partiality of historical and cultural truths as an urgent and explicit counter attack Adopting a consciously international approach the authors connect and compare their own story with those of similar design teaching movements in the Global South such as the Barefoot School in India and ZIVA founded by Saki Mafunkikwa in Zimbabwe
