Write Yourself In Eric Tipler, 2024-06-11 Write authentic memorable college essays that will help you get into the right school for you with this guidebook from a veteran college admissions expert Every spring over one million high school juniors embark on an annual rite of passage applying to college And with college admission rates at an all time low getting into a competitive school is now tougher than ever At the top schools a strong transcript and great test scores will get your application noticed but it's your essays and the personal story that they highlight that will get you admitted But often students don't know where to start Teens fret over topics because they don't know what college admissions officers are looking for They bend over backwards to write what they think colleges want to read instead of telling their authentic story which is what admissions officers actually want in a way that will resonate with their readers They also struggle because college essays which are narrative first person and introspective require a different set of skills from academic expository writing they've been learning for years in the
