Narratives of Pedagogical Development and Navigation of Educational Contexts Gierhart, Aaron R., 2025-06-19 Educators continually adapt and grow within the changing landscape of teaching and learning. Understanding these journeys may offer valuable insights into the ways educators learn, reflect, and transform their practices. *Narratives of Pedagogical Development and Navigation of Educational Contexts* explores various stories of pedagogy and teaching as a process of growth and change. It presents an alternative to traditional views of teaching as a profession, examining the social and political forces impacting education and highlighting the realities of teaching amidst various social challenges and political issues. Righteousness, Volume 2 Jeffrey J. Niehaus, 2023-10-19 The second volume of this three-volume work exegetes and comments on every occurrence of the Hebrew terms for righteousness in the Old Testament. It begins with a discussion of apperception and deductive method and concludes with an afterword on righteousness and ontology. The ontological argument affirms that God's aseity is the foundation of righteousness in the Bible, and thus of all true righteousness. Righteousness is being true to God, and God is always true to himself, including in his self-existence. Other terms in the righteous word group, such as righteous and justify, are considered along with the important word pair righteousness and justice in semantic domain studies. In the first three chapters, semantic domain studies show that terms like upright, blameless, and good are qualifiers of righteousness. Whatever the flavor or nuance of the terms for righteousness may be in different OT contexts, however, study shows that the underlying sense of righteousness is conformity to God's Being and doing, and the same is true of the righteousness of God.
