Apple Pro Training Series Dion Scoppettuolo, 2012-10-13 Updated for Aperture 3.4 this Apple certified guide starts with the basics of image management and takes you step by step through Aperture's powerful editing, retouching, proofing, publishing and archiving features. It delivers comprehensive training, the equivalent of a two-day course in one project-based book. With complete coverage of Aperture's new interface and features, you'll learn to index your photos using face recognition and GPS location data, master powerful non-destructive image adjustment tools including brush-based local adjustments, and create impressive slideshows that include photos, HD video clips, and layered soundtracks. Learn time-saving techniques for sorting, ranking, and organizing images for use in different jobs. And discover effective ways to publish images for client review and keep your online portfolio up to date automatically. This book's real-world exercises feature professional photography from a variety of genres including landscapes, portraits, wedding, and wildlife photography. Focused lessons take you step by step through professional real-world projects. Accessible writing style puts an expert instructor at your side. Ample illustrations help you master techniques fast. Lesson goals and time estimates help you plan your time. Chapter review questions summarize what you've learned and prepare you for the Apple Pro certification exam. Requires OS X v 10.8.2 or later, Aperture 3.4 or later. The Apple Pro Training Series is both a self-paced learning tool and the official curriculum for Apple Pro Training and Certification Programs.

Apple Training Series Sal Soghoian, Bill Cheeseman, 2009-06-02 We know what you're thinking. You've heard about AppleScript. You've heard that it can do amazing things. You've heard that it can automate away the tiring, redundant, repetitive tasks you do with the computer. All true. But you're not sure about what's involved with using it. Is it difficult? Is it programming? After all, you're just a better-than-average computer user. You know what you know, and your expertise serves you pretty well. But recently, you've reached the point of asking yourself, "Is there a better way?" The answer is Yes. And relax, you just got lucky. This book is for you. If you've never written a single line of computer code, this book is for you. If the most technical thing you do on the computer is calculate a column in Excel, this book is for you. If you're tired of doing the same thing over and over, this book is for you. It's about being motivated to explore, understand, and take advantage of the tools you already own. AppleScript is free; the only price for its use is your desire to finally sit down and take a few moments to absorb and activate its magic. This book starts at square one and walks you through the process of understanding and writing AppleScript, step by step, one concept at a time, until you find yourself suddenly creating powerful and useful automated solutions. And the lessons in this book are based on a decade of experience teaching hands-on classes to folks just like you. You can do this. You can become Master of your Computer Universe. Still don't believe us? Open the first chapter and start reading. You'll see.
