Signs in Use Jørgen Dines Johansen, Svend Erik Larsen, 2005-07-26 Signs in Use is an accessible introduction to the study of semiotics All organisms from bees to computer networks create signs communicate and exchange information The field of semiotics explores the ways in which we use these signs to make inferences about the nature of the world Signs in Use cuts across different semiotic schools to introduce six basic concepts which present semiotics as a theory and a set of analytical tools code sign discourse action text and culture Moving from the most simple to the most complex concept the book gradually widens the semiotic perspective to show how and why semiotics works as it does Each chapter covers a problem encountered in semiotics and explores the key concepts and relevant notions found in the various theories of semiotics Chapters build gradually on knowledge gained and can also be used as self contained units for study when supported by the extensive glossary The book is illustrated with numerous examples from traffic systems to urban parks and offers useful biographies of key twentieth century semioticians

Cracking Codes R. B. Parkinson, Whitfield Diffie, Mary Fischer, R. S. Simpson, 1999-01-01 Napoleon s troops discovered a granitoid slab in the village of Rosetta in the western Delta in 1799 The Rosetta Stone was to become one of the most famous Egyptian antiquities in the world as well as an instantly recognizable icon of script and decipherment In this exciting beautifully illustrated work Richard Parkinson tells the story of the Stone s discovery and the so called battle of the decipherers that it inspired Published to accompany a major exhibition at the British Museum celebrating the bicentenary of the Stone s discovery and including a selective catalog of the exhibits this book also examines the wider issues of script and writing in ancient Egypt and beyond The Rosetta Stone is a fragment of a stela inscribed with a priestly decree in honor of Ptolemy V The main significance of the text lies not in its content however but in the fact that it is written in three scripts hieroglyphic demotic and ancient Greek Early Orientalists recognized immediately the potential of the Stone for the decipherment of Egyptian hieroglyphs Thomas Young made great advances especially with the demotic text but it was Jean Fran ois Champollion who made the final breakthrough in 1822 In so doing he cracked much more than two Egyptian scripts He opened up Egyptian culture as a whole to historians Among the subjects discussed in Cracking Codes are the relationship between hieroglyphs and art the social prestige of literacy and the power of writing and its practical aspects scribal equipment and training A brief description of other decipherments is also given drawing on examples such as Linear B and Meroitic a language which remains to be read A selection of the History Book Club the Book of the Month Club and the Quality Paperback Book Club
