AutoCAD 2020 for the Interior Designer Dean Muccio, Focused around a hotel suite project AutoCAD 2020 for the Interior Designer provides the Interior Design student with a non intimidating tutorial based approach to learning the AutoCAD program It accomplishes this by taking students that have no computer design experience from simple commands to complete projects in this single semester sized text This well organized and progressive approach to learning AutoCAD sets this text apart from others To support all users this book now covers AutoCAD for both Macs and PCs The emphasis of this book is on easy to understand descriptions and instructions allowing the non technical artistic visual learning Interior Design student to quickly get past the fear of using the computer to produce drawings The focus is entirely on the use of AutoCAD for the Interior Design field and not simply architectural drawings Chapters alternate between command

descriptions which are organized by a command set category and tutorials This allows students to easily refer back to command descriptions without hunting through a tutorial that introduces commands as it progresses The emphasis is on the practical use of commands using the AutoCAD ribbon workspace rather than the multiple and seldom used command options Multiple tutorials of the hotel suite which includes floor plan elevation views dimensioning and plotting provide a practical application of the commands learned in the preceding chapters Completely dimensioned drawings are provided at the beginning of each tutorial so that the advanced student or an instructor led class can complete them without going through the step by step process This textbook is classroom proven and relevant interior design homework problems are provided After completing this book the student will be able to create all their 2 D Interior Design work using AutoCAD

Design Portfolios Mark W. Smith,2023-02-27 Unique perspective of a seasoned designer and veteran A E industry recruiter regarding what design industry recruiters actually look for in a Design Portfolio Design Portfolios A Recruiter s View provides a student friendly guide written from the perspective of a designer and design industry recruiter on what recruiters look for as they review a design portfolio It shows students how to create a professional quality portfolio that will get them to that all important next step in the recruiting process the interview Using a unique plan of action The Four S s the book presents an organizational mindset focused on the added value of telling your Story revealing your Style proclaiming your Substance and Sharing your uniqueness effectively In today s competitive market a winning portfolio is much more than a simple accounting of digital skills and volumes of high resolution graphics This book shows students what recruiters really value and how to ensure their portfolios make the right impression Design Portfolios A Recruiter s View explains How to develop a memorable organizational approach around story style substance and sharing and create a winning portfolio Answers to the key questions students ask to fill in gaps in their academic instruction Real examples of resumes cover letters and portfolios that reveal what is needed for success Years of big picture insight gained from actual portfolio reviews during the author s time as a designer and recruiter Aimed at the

inexperienced design student rather than the practicing professional Design Portfolios A Recruiter's View is an easy to understand and constructive guide that is incredibly helpful to young designers with project histories that consist only of academic and internship work

The Blended Course Design Workbook Kathryn E. Linder, 2023-07-03 Blended also called hybrid classrooms in which face to face interaction is intentionally combined with online activities to aid student learning are becoming more and more common Most recently flipped classrooms have become a popular method for teaching because more time for active learning in class can be gained by moving content delivery such as lecture to outside of class homework using technology tools such as video or lecture capture The blended model is proving to be an environment that provides more self directed technology mediated learning experiences for students who will be incorporating technology more and more into their professional lives post college The Blended Course Design Workbook meets the need for a user friendly resource that provides faculty members and administrators with instructions activities tools templates and deadlines to guide them through the process of revising their traditional face to face course into a blended format Providing a step by step course design process that emphasizes active learning and student engagement this book will help instructors adapt traditional face to face courses to a blended environment by guiding them through the development of course goals and learning objectives assignments assessments and student support mechanisms with technology integration in mind It will also help instructors choose the right technologies based on an instructor's comfort level with technology and their specific pedagogical needs The book will help each instructor who uses the text to develop a unique course by making choices about their course design based on student learning needs for their chosen topic and discipline Every component of the workbook has been piloted with faculty designing and implementing blended courses and then revised to better meet the needs of faculty across a range of comfort levels with technology use The Blended Course Design Workbook includes detailed instructions for each stage of course design alongside specific activities that the reader can complete The book is unique because it facilitates a step by step process for blended course design with specific templates and tools that can be used across disciplines
