primary EFL teachers Eva Wilden, Raphaela Porsch, 2017 In this publication national and international researchers working in the field of English as a Foreign Language EFL education applied linguistics and educational sciences are presenting their current research in the area of primary EFL teacher education The starting point of this collection was the general shift in educational research towards the role of teachers as well as towards facets of the teaching profession and their relative contributions to successful and good education All contributions to this volume focus primarily on hitherto insufficiently researched aspects of the professional development of primary EFL teachers This book is thus contributing to closing

existing research gaps as well as giving impetus for future studies and increasing communication about research on the professional development of EFL teachers in related disciplines. Aside from an overview of teaching primary EFL in Europe and beyond, the contributors are presenting up-to-date research on policy and practice of primary EFL teacher education in service training as well as professional competences and beliefs of primary EFL teachers. Edited by Eva Wilden and Raphaela Porsch, this interdisciplinary book provides contributions from Nora Benitt, Henriette Dausend, Ann Cathrin Deters, Philipp Janet, Enever Alicia, Jckel Johannes, Knig Angelika, Kubanek Sandra, Lammerding Rama, Mathew Gnter, Nold Annamaria, Pinter Thorsten, Piske Shelagh, Rixon Andreas, Rohde Henning, Rossa Bianca, Roters Sarah, Strau and Sarantis Tachtsoglou.

Resources in Education, 2001-04 **Reading Randomised Controlled Trials** Robert Savage, Amy Fox, Anneka Dawson, Helen Gray, Clare Huxley, 2025-03-03. In early 2021/22, the Flexible Phonics reading intervention, a large-scale randomised controlled trial, took place in 118 schools in England and involved nearly 3,000 children. This study aimed to provide valuable insights into the success of largely school-based education trials. The Flexible Phonics trial proved to be not only an important experiment in improving children's literacy but a case study in which the methodology of single randomised controlled trials in education can be considered. *Reading Randomised Controlled Trials* investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity. The book emphasises the human operations, decision making, and actions that drive such trials, which are often overlooked in published reports. Through the case study of Flexible Phonics, the book highlights the key differences between scaled educational trials and other types of trials, such as pharmaceutical trials. The additional focus on early childhood literacy is of significant educational importance, particularly in the context of UK school partial closures in 2020 and 2021 during the Covid-19 pandemic. *Reading Randomised Controlled Trials* is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education.

Encyclopedia of Education and Human Development Stephen J. Farenaga, Daniel Ness, 2015-07-17. This comprehensive and exhaustive reference work on the subject of education, from the primary grades through higher education, combines educational theory with practice, making it a unique contribution to the educational reference market.
