The Global Film Market Transformation in the Post-Pandemic Era Qiao Li, David Wilson, Yanqiu Guan, 2023-05-04 This book reviews the development and performance of the global film industry during the COVID 19 pandemic and examines new trends in film production distribution and consumption through a global lens The COVID 19 pandemic has had a substantial impact on the global film industry since the beginning of 2020 There has been significant transformation in terms of film production distribution and consumption Hollywood like many national cinemas across the globe has suffered the most significant impact at all levels the interruption of new film productions shutdowns of movie theatres in many countries and delays in the release of new films among them Many movies made for cinemas were forced to move from release in theatres to various streaming platforms and nontraditional production companies continued to grow their market share This book places the global film industry in a post Pandemic context It provides detailed analyses of specific systems of film production distribution and consumption in national cinemas as well as in Hollywood while also engaging with the key theoretical and methodological questions from the film studies literature This volume is a critical reference for students and scholars of film studies and general readers who are interested in the new trends and transformation of the global film industry in a post pandemic era The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Stocks for All: People's Capitalism in the Twenty-First Century Petri Mäntysaari, 2021-12-31 Public stock markets are too small This book is an effort to rescue public stock markets in the EU and the US There should be more companies with publicly traded shares and more direct share ownership Anchored in a broad historical study of the regulation of stock markets and companies in Europe and the US the book proposes ways to create a new regulatory regime designed to help firms and facilitate people's capitalism Through its comparative and historical study of regulation and legal practices the book helps to understand the evolution of public stock markets from the nineteenth century to the present day The book identifies design principles that reflect prior regulation While continental European company law has produced many enduring design principles the recent regulation of stock markets in the EU and the US has failed to serve the needs of both firms and retail investors The book therefore proposes a new set of design principles to serve contemporary societal needs
