All Hands ,1959 Health Care Policy in an Age of New Technologies Kant Patel,Mark E Rushefsky,2015-05-20

Revolutionary advances in biomedical research and information systems technology pose new and difficult issues for American health care policy especially in the context of managed care Health Care Policy in a New Millennium takes on this challenging array of issues where the dignity of individual life meets the imperatives of national level health care systems patients rights rationing of care organ transplants genetic research confidentiality of medical records the right to die and other ethical dilemmas The book places these critical questions about the quality of life in our society in their political legal social economic and ethical contexts **Multilingual Baseball** Brendan H. O'Connor,2023-04-06 What can baseball teach us about language culture and society The first book length exploration of multilingualism in professional sports Multilingual

Baseball provides an intimate look at language diversity in the transnational world of baseball. Based on extensive interviews and observations in the US and the Dominican Republic, the book foregrounds the voices of current and former players, coaches, front office personnel, international scouts, language teachers and interpreters with baseball experience in the Dominican Republic, Cuba, South Korea, Taiwan, and the United States. Engaging a wide range of foundational concepts within sociolinguistics, applied linguistics, and linguistic and cultural anthropology, the analysis reveals the relevance of bilingualism to the social and economic realities of professional baseball as a transnational business. It also illuminates day to day encounters with linguistic and cultural difference on the field, in clubhouses, and in communities around the world. Through this linguistic lens, the book delves into social issues in diverse societies by connecting interactions within baseball to the broader challenges of immigration, race, and demographic change. While grounded in the experiences of Spanish and English speakers in US Major League Baseball organizations, *Multilingual Baseball* presents the transnational game as a microcosm of globalizing societies around the world, inviting readers to consider what we can learn from the bilingual understandings and misunderstandings that arise in everyday baseball interactions.

E-effective Writing for E-learning Environments Katy Campbell, 2004-01-01

E-effective Writing for E-Learning Environments integrates research and practice in user centered design and learning design for instructors in post secondary institutions and learning organizations who are developing e learning resources. The book is intended as a development guide for experts in areas other than instructional or educational technology; in other words, experts in cognate areas such as Biology or English or Nursing, rather than as a learning design textbook. The organization of the book reflects the development process for a resource, course, or program, from planning and development through formative evaluation, and identifies trends and issues that faculty or developers might encounter along the way. The account of the process of one faculty member's course development journey illustrates the suggested design guidelines. The accompanying practice guide provides additional information, examples, learning activities, and tools to supplement the text.
