Owning the World of Ideas Matthew David, Debora Halbert, 2015-08-17 Formally ownership of ideas is legally impossible and can never be globally secured Yet in very real and significant ways these limits have been undone In principle ideas cannot be owned yet undoing the distinction between ideas and tangible manifestations the distinction which underpins the principle allows the principle to hold even whilst its meaning is hollowed out Post Cold

War global network capitalism is premised upon regulatory structures designed to enforce deregulation in global markets and production but at the same time to enforce global regulation of property and intellectual property in particular. However, this roll out has not been without resistance and limitations. Globalization, the affordances of digital networks and contradiction within capitalism itself between private property and free markets promote and undo global IP expansion. In this book, David and Halbert map the rise of global IP protectionism, debunk the key justifications given for IPRs, dismiss the arguments put forward for global extension and harmonization and suggest that roll back suspension and even simply the bi-passing of IP in practice offer better solutions for promoting innovation and meeting human needs. **Interactive Visual**

Ideas for Musical Classroom Activities Catherine Dwinal, 2020. The digital interactive projection system is a staple of nearly every music classroom in the United States. By allowing teachers to show students methods and outcomes from a computer, these systems have become a necessity for reaching students who grew up as digital natives. But as author and distinguished music educator Catie Dwinal demonstrates, such systems can be much more meaningful pedagogical tools than simple replacements for chalk boards. In this book, she offers practical tips, tricks, resources and 50 activities ideal to use alongside classroom projection systems. She focuses especially on tips and activities for beginning teachers, giving them the confidence to take a step out of their comfort zone and learn new ways of engaging students with technology. More than this, she provides reference materials that will serve as a trusted reference resource for years to come. *How To Make It in the New Music Business: Practical Tips on Building a Loyal Following and Making a Living as a Musician (Second Edition)* Ari Herstand, 2019-11-05. The Social Worlds of Nineteenth-Century Chamber Music
 Marie Sumner Lott, 2015-06-15 Music played an important role in the social life of nineteenth-century Europe, and music in the home provided a convenient way to entertain and communicate among friends and colleagues. String chamber music, in particular, fostered social interactions that helped build communities within communities. Marie Sumner Lott examines the music available to musical consumers in the nineteenth century and what that music tells us about their tastes, priorities, and activities. Her social history of chamber music performance places the works of canonic composers such as Schubert, Brahms, and Dvořák in relation to lesser-known but influential peers. The book explores the dynamic relationships among the active agents involved in the creation of Romantic music and shows how each influenced the others' choices in a rich collaborative environment. In addition to documenting the ways companies acquired and marketed sheet music, Sumner Lott reveals how the publication and performance of chamber music differed from that of ephemeral piano and song genres or more monumental orchestral and operatic works. Several distinct niche markets existed within the audience for chamber music, and composers created new musical works for their use and enjoyment. Insightful and groundbreaking, *The Social Worlds of Nineteenth-Century Chamber Music* revises prevailing views of middle-class influence on nineteenth-century musical style and presents new methods for interpreting the meanings of musical works for musicians both past and present.

Media Today
 Joseph Turow, 2016-10-04 Media Today uses convergence as a lens that puts students at the center of the profound changes in the 21st-century media world. Through the convergence lens, they learn to think critically about the role of media today and what these changes mean for their lives presently and in the future. The book's media systems approach helps students to look carefully at how media content is created, distributed, and exhibited in the new world that the digital revolution has created. From newspapers to video games and social networking to mobile platforms, Media Today prepares students to live in the digital world of media.

A Dam in the River
 Jeffrey M. Camhi, 2013 *Genetic Criticism and the Creative Process*
 William Kinderman, Joseph E. Jones, 2009 Studies of the genesis of musical, literary, and theatrical works. Not only the final outcome but the process of creative endeavor has long attracted attention in various artistic disciplines, but only recently has the potential of such research been seriously explored. The most rigorous basis for the study of artistic creativity comes not from anecdotal or autobiographical reports but from original handwritten sketches and drafts and preliminary studies as well as from revised manuscripts and typescripts, corrected proof sheets, and similar primary sources. The term

genetic criticism or critique *g n tique* relates not to the field of genetics but to the genesis of works of art as studied in a broad and inclusive context The essays in this volume explore aspects of genetic criticism in an interdisciplinary context emphasizing music literature and theater A common thread pertains to the essential continuity between a work and its genesis This volume brings together essays from leading scholars on subjects ranging from biblical scholarship to Samuel Beckett and from Beethoven's *Eroica* Symphony to very recent musical compositions Contributors Nicolas Donin Daniel Ferrer Alan Gosman R B Graves Joseph E Jones William Kinderman Jean Louis Lebrave Lewis Lockwood Geert Lernout Peter McCallum Armine Kotin Mortimer and James L Zychowicz William Kinderman is Professor of Musicology at the University of Illinois at Urbana Champaign Joseph E Jones is visiting Assistant Professor of Musicology at the University of Illinois at Urbana Champaign
