Online Franklin S. Allaire, Jennifer E. Killham, 2022-04-01 Science is unique among the disciplines since it is inherently hands on. However, the hands-on nature of science instruction also makes it uniquely challenging when teaching in virtual environments. How do we as science teachers deliver high quality experiences in an online environment that leads to age grade level appropriate science content knowledge and literacy but also collaborative experiences in the inquiry process and the nature of science? The expansion of online environments for education poses logistical and pedagogical challenges for early childhood and elementary science teachers and early learners. Despite digital media becoming more available and ubiquitous and increases in online spaces for teaching and learning, Killham et al 2014, Wong et al 2018, PreK-12 teachers consistently report feeling underprepared or overwhelmed by online learning environments (Molnar et al 2021, Seaman et al 2018). This is coupled with persistent challenges related to elementary teachers' lack of confidence and low science teaching self-efficacy (Brigido, Borrachero, Bermejo, Gunning, Duran, Duran 2004). Ideal for undergraduate teacher candidates, graduate students, teacher educators, classroom teachers, parents, and administrators, this book addresses why and how teachers use online environments to teach science content and work with elementary students through a research-based foundation.

Homeschool Your Child for Free Laura Maery Gold, Joan M. Zielinski, 2009-08-04 For Families Who Want to Splurge on Education but Scrimp on Spending: Are you considering homeschooling your child but don't know where to go for the best educational resources? The Internet is an open door to the biggest library laboratory the world has ever seen and it's all at your fingertips for free. This never-ending source of information, adventure, and educational experiences for the entire family is now compiled in a complete curriculum for any age in *Homeschool Your Child for Free*. This invaluable guide to all the best in free educational material from reading readiness activities for preschoolers to science projects for teens categorizes, reviews, and rates more than 1,200 of the most useful educational resources on the Internet and beyond. You'll discover legal guidelines and compliance requirements for home educators, complete curriculum plans for a comprehensive education for preschool through high school, online lesson plans arranged by subject from American history to zoology, teaching tips and motivators from successful homeschoolers, and much, much more. Wow! Everything I have been trying to organize all in one book. This is going to be part of my resource library for the support group I lead. Thanks ladies! Kimberly Eckles, HIS Support Group Leader, Home Instructors. I'm impressed. There are more sites and links than I knew existed. A great resource for homeschoolers. Maureen McCaffrey, publisher, Homeschooling Today.

Middle School Mathematics Lessons to Explore, Understand, and Respond to Social

Injustice Basil M. Conway IV, Lateefah Id-Deen, Mary Candace Raygoza, Amanda Ruiz, John W. Staley, Eva Thanheiser, 2022-07-20 If you teach middle school math and have wanted to promote social justice but haven't been sure how to get started you need to check out this book. It incorporates lessons you can use immediately as well as how to foster the kind of classroom community where students will thrive. It's the kind of book you'll want to have alongside you to support you throughout your journey. Robert Kaplinsky, Author and Consultant, Long Beach, CA. Empower young adolescents to be the change, join the teaching mathematics for social justice movement. Students of all ages and intersecting identities through media and their lived experiences bear witness to and experience social injustices and movements around the world for greater justice. However, when people think of social justice, mathematics rarely comes to mind. With a user-friendly design, this book brings middle school mathematics content to life by connecting it to issues students see or experience. Developed for use by Grades 6-8 educators, the contributed model lessons in this book walk teachers through the process of applying critical frameworks to instruction using standards-based mathematics to explore, understand, and respond to social injustices. Learn to plan daily instruction that engages young adolescents in mathematics explorations through age-appropriate culturally relevant topics such as health and economic inequality, human and civil rights, environmental justice, and accessibility. Features include: Content cross-referenced by mathematical concept and social issues; Connection to Learning for Justice's social justice standards; Downloadable teacher materials and lesson resources; Guidance for lessons driven by young adolescents' unique passions and challenges; Connections between research and practice. Written for teachers committed to developing equitable and empowering practices through the lens of mathematics content and practice standards, as well as social justice standards, this book will help connect content to young adolescents' daily lives, strengthen their mathematical understanding, and expose them to issues that will support them in becoming active agents of change and responsible leaders. *Teaching the Last Backpack Generation* Zachary Walker, Kara Rosenblatt, Donald McMahon, 2015-09-05 Don't just know how to use mobile technology. Know how to use it to transform learning. This refreshingly easy-to-use workbook shows how to make mobile devices a natural part of lessons no matter the content. Discover practical device management skills, fun strategies students will love, and helpful resources to extend professional learning.
