Romantasy S Ai Overview Compare:

An Introduction to Romance Linguistics, Its Schools and Scholars Iorgu Iordan, 1970 Trade and Romance Michael Murrin, 2024-05-31 In Trade and Romance Michael Murrin examines the complex relations between the expansion of trade in Asia and the production of heroic romance in Europe from the second half of the thirteenth century through the late seventeenth century. He shows how these tales of romance ostensibly meant for the aristocracy were important to the growing mercantile class as a way to gauge their own experiences in traveling to and trading in these exotic locales. Murrin also looks at the role that growing knowledge of geography played in the writing of the creative literature of the period, tracking how accurate or inaccurate these writers were in depicting far flung destinations from Iran and the Caspian Sea all the way to the Pacific. With reference to an impressive range of major works in several languages including the works of Marco Polo, Geoffrey Chaucer, Matteo Maria Boiardo, Lu s de Cam es Fern o Mendes Pinto, Edmund Spenser, John Milton, and more, Murrin tracks numerous accounts by traders and merchants through the literature, first on the Silk Road beginning in the mid thirteenth century, then on the water route to India, Japan, and China via the Cape of Good Hope, and finally the overland route through Siberia to Beijing. All of these routes originally used to exchange commodities quickly became paths to knowledge as well, enabling information to pass if sometimes vaguely and intermittently between Europe and the Far East. These new tales of distant shores fired the imagination of Europe and made their way with surprising accuracy as Murrin shows into the poetry of the period.

The Art of Medieval French Romance Douglas Kelly, 1992-04-01 Douglas Kelly provides a comprehensive and historically valid analysis of the art of medieval French romance as the romancers themselves describe it. He focuses on well known writers such as Chr tien de Troyes and Marie de France, and also draws on a wide range of other sources: prose romances, non Arthurian romances, thirteenth century verse romances, and variant versions from the later Middle Ages. Kelly is the first scholar to present the art of medieval romance to a modern audience through the interventions and comments of medieval writers themselves. The book begins by examining the difficulties scholars perceive in medieval literature: problems such as source and intertextuality, structure in its manifold modern meanings, and character psychology and individuality. These issues frame Kelly s identification and discussion of all the known authorial interventions on the art and craft of romance. Kelly s careful reconstruction of the art of romance based on the records left by the romancers themselves will be an invaluable resource and guide for all medievalists.

Orality and Performance in Early French Romance Evelyn Birge Vitz, 1999 This book proposes a fundamental revision of the history of early French romance. It argues that oral and performed traditions were far more important in the development of romance than scholars have recognised. Starting with issues of orality and literacy, it is argued that the form in which romances were composed was not the invention of clerics but was rather an oral form. The second part of the book looks at performance and shows that romances such as those of Chretien invited voiced presentation; moreover, they were frequently recited from memory, sung.
