beginners students and working professionals this book is your SEO rich empowering resource to create lasting wealth Take control of your future and learn how to build multiple streams of income year after year **Personalized Machine Learning** Julian McAuley,2022-02-03 Explains methods behind machine learning systems to personalize predictions to individual users from recommendation to dating and fashion **It's Not Complicated** Rick Nason,2017-01-01 It s Not Complicated offers a paradigm shift for business professionals looking for simplified solutions to complex problems Rick Nason introduces the principles of complexity thinking which empower managers to understand correlate and explain a diverse range of business phenomena **Manage Your Mindset** Janet Hanson,2017-09-08 As the foremost researcher in the area of correlating mindset with a variety of organizational learning factors having performed a survey validation study of the Mindset Works Inc What s My School Mindset Survey and the Project for Educational Research That Scales PERTS academic mindset survey the author has discovered links between the philosophical positions one holds and the theory of mind that describes what makes humans different from animals This book proposes that the ability to recognize and respond to the differences between what we see and others see is the key reason for individuals groups and organizations to succeed or to fail How we perceive differences and respond to them changes the way our brain develops and how our systems are designed This book provides strategies for supporting continuous development and growth in individuals in group dynamics and in system organizational development using the most current understanding and propositions of theories of mind Our theories of physics are expanding through Newtonian Classical on to Quantum Our technologies are expanding from simple tools to industrialization to digital information systems and on to holographic imagery and virtual realities Biological understandings have grown from magical beliefs about life through static views of fixed DNA to cloning and the potential to regenerate organs and extend life Our world is in need of an update on the social transformations occurring in human understanding that apply to addressing key issues of our day This book revisits the concepts discussed in mindset theory and reframes it with a larger more inclusive potential for understanding our world that empowers our ability for personal choice to improve our lives *Corporate Risks and Leadership* Eduardo E. Mariscotti,2025-04-24 The context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law Because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of fines for noncompliance have increased dramatically In parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people This change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal with this more complex environment To transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing

and sales plans strategies growth targets investment plans and or talent acquisition While each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain This book is a source of information that connects yesterday with today The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves This book covers theories of ethics but with an eye focused on practical application Risks ethics and compliance are analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or technical and regulatory details Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations Thus due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors it seems appropriate that executives get access to this book about risks ethics compliance and human resources directed not only to compliance experts but also to any organizational leader This second edition offers various examples to cultivate ethical thinking and behavior identify common risks and comprehend their adverse effects on organizations
