Priceless William Poundstone,2011-09-01 The first book to reveal how everyday pricing strategies manipulate us Why do text messages cost money while emails are free Why do cereal packets keep getting smaller Why do department stores have a few extortionate goods that no one will buy Why do so many prices end in 9 In **Priceless** bestselling author William

Poundstone reveals the hidden psychology of value and explores how we react to the most pervasive persuader of all price. Charting the burgeoning growth of price consultants who advise retailers from Nike to Nokia, Poundstone shows how behavioural decision theory has revolutionised the pricing strategies of major corporations. Informed by fascinating behavioural experiments and packed with real life examples, *Priceless* explains why prices are so important and the tricks that companies use to sell their goods. It will prove indispensable to anyone who buys, sells or negotiates. **Ebook: Managerial Economics and Organizational Architecture** Brickley, 2015-05-16. **Ebook: Managerial Economics and Organizational Architecture** The **Worth of Goods** Jens Beckert, Patrik Aspers, 2011-06-30. How do we place value on goods and importantly why? Valuation and pricing are core issues in the market economy but understanding of these concepts and their interrelation is weak. In response, *The Worth of Goods* takes a sociological approach to the perennial but timely question of what makes a product valuable. Structured in three parts, it first examines value in the broader sense: moral values and how they are formed and the relations between economic and non-economic values, discussing such matters as the value of an oil spill, the price of a scientific paper, value in ethical consumption and imaginative value. The second part discusses the issues surrounding valuation in aesthetic markets, specifically wine, fashion, models, art and the creative industries. The third part analyzes valuation in financial markets, credit rating agencies, stock exchange markets and industrial production. This pioneering volume brings together leading social scientists to provide a range of theoretical tools and case studies for understanding price and the creation of value in markets within social and cultural contexts and preconditions. It is an important source for scholars in economics, sociology, anthropology and political science interested in how markets work and how value is established. **Boys' Life**, 1988-09. *Boys' Life* is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics and Scouting. *Super Market Merchandising*, 1953.
