Flexibility in Modern Business Law Mark Fenwick, Stefan Wrba, 2016-01-08 This book brings together a number of contributions examining how changes associated with economic globalization have contributed to the creation of new pressures on and expectations of those fields of law connected to the regulation of cross border commercial transactions These new demands of law in particular that it be more agile or flexible in regulating the economy have prompted lawmakers and regulators in multiple jurisdictions to adopt a range of new regulatory techniques and legal forms to respond to this challenge In many cases these adaptations in law have entailed compromising traditional legal principles such as legal certainty in favor of empowering regulators with greater discretion than has traditionally been permitted in

modern law This change raises important questions about the meaning of fairness certainty or flexibility as well as the relationship between the public and private good

Use of Warranties in Road Construction Donn E. Hancher,1994 This synthesis on the use of warranties in road construction will be of interest to administrators engineers designers and contractors involved with highway design and construction and the procurement process for these services Experiences with use of warranties in Europe and the United States are cited and the potential impacts benefits and concerns of using warranties in the United States are identified Actions needed to facilitate the use of warranties for highway projects in the United States are also discussed The use of warranties in road construction is relatively widespread in the European highway industry compared to practice in the United States where use has been limited This report of the Transportation Research Board describes the various methods used in Europe for highway industry warranties and identifies the issues that need to be addressed before construction warranties can be translated to U S practice Recent congressional proposals call for the use of warranties to be allowed on federal aid highway projects This has caused varied reactions from the parties involved in the design and construction of highways resulting in a General Accounting Office study on methods for improving the quality of federal aid highways including the use of warranties Ultimately the owner will have to decide whether to use warranties in highway construction projects Some of the potential benefits and concerns of using warranties plus needed actions for successful implementation are presented in this synthesis which is considered a snapshot of the issues at the time of publication *U.S. Government Books* ,1982
