academic writing and research process Through a series of step by step instructions and practical tips this book provides readers with the knowledge and tools they need to leverage the power of AI to produce high quality academic publications The text covers the historical context of AI development techniques for communicating with AI systems and strategies for transforming AI into helpful research assistants Readers will discover the art of prompt engineering and learn practical applications for using AI to ideate research projects conduct literature searches and accelerate academic writing Emphasis is placed on the responsible use of AI positioning it as an extension of human capabilities rather than a replacement Through real world examples complex AI concepts are demystified and key challenges and limitations are addressed head on Whether you re a university student or a tenured professor this book is your indispensable companion to beginning your path towards becoming an AI powered scholar

Artificial Intelligence Literacy in Higher Education Imre Fekete,2025-07-08 This book explores the concept of artificial intelligence AI literacy within higher education addressing both instructors and students preparedness to engage with AI technologies responsibly and effectively By synthesising existing frameworks and empirical studies alongside presenting two original research studies the book bridges theoretical foundations with practical applications tailored for modern educational contexts Practical recommendations include methods to develop AI literacy skills focusing on ethical awareness technological competence and the potential for AI to enhance teaching and learning processes Aimed at higher education instructors stakeholders and students the book offers actionable insights and tools for fostering informed and critical engagement with AI aligned with lifelong learning goals and professional development needs

Utilizing AI Tools in Academic Research Writing Srivastava, Anugamini Priya,Agarwal, Sucheta,2024-05-02 Those entrenched in academia often have daunting processes of formulating research questions data collection analysis and scholarly paper composition Artificial intelligence AI emerges as an invaluable ally simplifying these processes and elevating the quality of scholarly output Where the pursuit of knowledge meets the cutting edge of technology Utilizing AI Tools in Academic Research Writing unfolds a transformative journey through the symbiotic relationship between AI and academic inquiry It offers practical insights into the myriad ways AI can revolutionize academic pursuits This book extends beyond theoretical discussions delving into practical dimensions of AI integration demonstrating how it facilitates topic identification refines research design empowers data analysis and enriches literature reviews Readers will explore AI s indispensable role in precise hypothesis development enhancing the very foundation of academic inquiry The book introduces AI powered tools that streamline writing and editing ensuring research papers meet the highest standards of clarity and correctness Ethical considerations in AI integrated research take center stage emphasizing responsible and transparent practices This book is ideal for doctoral candidates master s students undergraduates or seasoned faculty members

Impacts of Digital Technologies Across Generations Anshari, Muhammad,Almunawar, Mohammad Nabil,Ordóñez de Pablos, Patricia,2025-02-13 The rapid advancement of digital technologies have profoundly impacted various aspects of our lives

transcending generational boundaries From the way we communicate work learn and entertain ourselves to broader societal structures such as governance business operations public services and policymaking the digital revolution has ushered in a paradigm shift that has transformed societies on a global scale It is essential to explore the multifaceted impacts of digital technologies across different generations Impacts of Digital Technologies Across Generations provides a comprehensive understanding of how digital technologies have influenced and shaped the lives of individuals from different generational cohorts By bringing together a diverse range of perspectives and research findings this book unravels the complex interplay between technological advancements and generational dynamics Covering topics such as digital technologies adoption lifelong learning and remote work this book is a valuable resource for researchers academicians policymakers practitioners educators postgraduate students and more

Indigenous Teaching Disciplines and Perspectives for Higher Education Kgari-Masondo, Maserole Christina, 2025-03-28 Literature indicates that sociolinguists and educationists often claim multilingual practice and Africanizing and Indigenizing education will jeopardize national unity and social cohesion Such claims delay the implementation of decolonization policies and the transformation of the curriculum under false assumptions However research reveals many Indigenous students struggle with higher educational content which is often presented through languages that are unfamiliar to them This implies that there is a need to uncover resources that can assist in necessitating the implementation of Indigenous education globally and that all multilingual strategies in education must be based on quality mother tongue illustrative content as its foundation As a result further research on the subject is necessary to enhance teaching strategies that reach all Indigenous students Indigenous Teaching Disciplines and Perspectives for Higher Education illustrates the need for the implementation of a decolonized teaching and learning curriculum with integrated resources as models It explores how to improve Indigenous knowledge content and teaching methods Covering topics such as cultural identity African research methodology and Indigenous media this book is an excellent resource for teachers policymakers school administrators researchers scholars academicians and more

Artificial Intelligence Tools in Education Paolo Ercoli, Robert Lewis, 1988 **AI Expert**, 1986 *AI Magazine*, 1992 **Software for Factory**

Automation Toshio Sata, G. Olling, 1989 In this book world renowned specialists present research papers discussing fundamental concepts current developments and future trends in Factory Automation FA Software Included are the subsequent discussions about the objectives implications and difficulties of using FA software The research papers were originally presented at a conference organized by IFIP Working Group 5.3 Discrete Manufacturing which covers all aspects of Computer Aided Manufacturing such as programming languages for numerically controlled machine tools process planning and optimization integration of CAD and CAM and computer integrated manufacturing and robotics The working group's scope includes advanced automation technologies such as automated machine tools industrial robots material handling equipment and FMS

Artificial Intelligence Andrew Kusiak, 1988 The rapid development of manufacturing and

computer technologies has generated new problems To solve these problems modern tools and techniques are required Artificial Intelligence AI is one of the most appropriate techniques for solving complex industrial problems This series represents an effort to disseminate valuable information on applications of AI in industry which are becoming well utilised throughout the world AI has been recognised in many industrial countries as a means of solving complex problems arising in modern industry All books in this series will highlight issues that arise in the development and application of AI systems The series is intended for production and industrial engineers managers system designers and programmers
