Alter, 2017-03-02 Almost half of the developed population has an internet based addiction. In some ways this is not surprising as our world is filled with addictive experiences from social media and messaging to rolling news and video streaming. Attention spans are decreasing as our time spent glued to our screens is increasing, negatively affecting our ability to relax, sleep, develop relationships and achieve meaningful goals. Psychologist Adam Alter provides insight into why, explains the science behind why we can't seem to stop such behaviour and offers practical advice for using technology differently in order to lead a happier life and to set yourself free. This examination of today's tech zombie epidemic is worth putting your phone down for. Guardian Essential reading. Regain control of your time, finances and relationships. Charles Duhigg, author of The Power of Habit. Recent Developments in Technology-Enhanced and Computer-Assisted Language Learning Zou,

Bin, Thomas, Michael, 2019-12-06 The pace at which technology changes has created unique challenges in the integration of such technologies into language teaching and learning. Innovative pedagogies and strategies must be developed that adapt to these changes and accommodate future technological changes. Recent Developments in Technology Enhanced and Computer Assisted Language Learning is an essential research publication that focuses on technological influences on language education and applications of technology in language learning courses including foreign and second language learning.
