Bureau of Foreign and Domestic Commerce,Herman Gilbert Brock,1918 **W.I.B. Price Bulletin** ,1919 *Retail Trading in Britain 1850-1950* James B. Madamba,1998-04-01 Contrary to the stereotype which depicts them as economic successes Asian workers have a high incidence of underemployment when compared to white workers This book integrates immigration and labor market trends into an analysis of the economic assimilation of Asians in the U S It examines four forms of underemployment unemployment part time employment working poverty and job mismatch for Asian Indian Filipino and Vietnamese men and women This study shows that Asian underemployment rates are consistently higher than for non Hispanic whites with Asian Indians having the highest rate Each Asian group displayed varied effects of human capital family and household industry and assimilation variables on the different underemployment categories Important implications of the findings show that ethnic group variation in underemployment appears stronger than differences by gender Ph D dissertation Pennsylvania State University 1994 revised with new preface and index **Parliamentary Debates** New Zealand. Bureau of Foreign and Domestic Commerce,1946 *Wages and Prices* Philip Snowden Snowden (Viscount),1920 **Rediscovering Fire** Guinevere Liberty Nell,2010 In this book Guinevere Liberty Nell visits this historical laboratory of social science to study the lessons in basic economics that it teaches Nell observes that the founders of the Soviet experiment Lenin and other Bolshevik leaders wrote volumes of articles and books

on Marxist theory and then proceeded to enact the very policies that they promised Therefore the Soviet experiment provides an ideal lens through which to view the consequences of various interpretations of economic theories and Marxist theories However despite the wealth of information available on the Soviet experiment few writers have closely analyzed this historical process and what lessons it might offer for market economies In this book Nell carefully considers Soviet theory and practice and draws out the lessons that Soviet planners learned Each chapter considers one theory the experience in the Soviet Union of policies based on this theory and the reforms that planners implemented as the system evolved as well as in response to changes in the local and international conditions and the lessons for market economies that this experience offers Nell s lessons capture the dynamic nature of the economy and illustrate insights from the debate between socialists and Austrian economists They should be useful and informative not only for readers interested in basic economics but also for economists interested in heterodox approaches to economic modeling and theory as well as for the citizen interested in rethinking the assumptions underlying mainstream policy debates
