Easterbrook,2015-12-08 Is there anything more universally American than NFL football Love of the NFL runs deep and broad It is a primetime TV event on multiple national networks subsidized by public funds and popular from Mount Rainier to Miami Beach The 2015 Super Bowl a thriller between the Patriots and Seahawks was the most watched program in the history of television with more than a third of the country watching Yet football is in trouble Public anxiety over football spiked in 2014 during the heat of the Ray Rice domestic violence scandal the ongoing concussion crisis and the league s appropriations of tax money for its own ends The mounting problems have led some to question the ethics of watching America s beloved game In this sharply argued witty observant book Gregg Easterbrook makes a spirited case in defense of the NFL As he shows the league brings together Americans of all stripes providing a rare space to talk about what matters Indeed the various issues we see in the league are often microcosms of the ones we see elsewhere whether it s suspicion of the rich or gender politics or even concern over bullying The NFL s social economic and legal problems are real but they also produce some of our best and most valuable discussions of those issues Football is a magnificent incarnation of our national character It has many flaws and they need fixing but the game s not over *Social Network Analysis in Sport Research*

Marion E. Hambrick,2019-03-27 Social network analysis is a methodological tool used to investigate social networks or collections of individuals groups or organizations and their shared relationships Sport researchers increasingly have applied social network analysis to a variety of sport contexts from team interactions among players and coaches to tailgating among fans to mega sporting events and their organizers and other stakeholders An opportunity now exists to expand this research and generate new insights regarding myriad sport contexts and applications This book provides an overview of the growing body of social network analysis research in sport Additionally it offers practical guidance for applying social network analysis within different sport settings and for using this methodology with new research applications **Religion and Sport in**

North America Jeffrey Scholes,Randall Balmer,2022-09-13 From athletes praising God to pastors using sport metaphors in the pulpit the association between sport and religion in North America is often considered incidental Yet religion and sport have been tightly intertwined for millennia and continue to inform shape and critique one another Moreover sport rather than being a solely secular activity is one of the most important sites for debates over gender race capitalism the media and civil religion Traditionally scholarly writings on religion and sport have focused on the question of whether sport is a religion using historical philosophical theological and sociological insights to argue this matter While these efforts sought to answer an important question contemporary issues related to sports were neglected such as globalization commercialization feminism masculinity critical race theory and the ethics of doping This volume contains lively up to date essays from leading figures in the field to fill this scholarly gap It treats religion as an indispensable prism through which to view sports and vice versa This book is ideal for students approaching the topic of religion and sport It will also be of interest to scholars studying sociology of religion sociology of sport religion and race religion and gender religion and politics and sport in general

Communication and Sport Michael L. Butterworth, 2021-07-19 Sport is a universal feature of global popular culture. It shapes our identities, affects our relationships, and defines our communities. It also influences our consumption habits, represents our cultures, and dramatizes our politics. In other words, sport is among the most prominent vehicles for communication available in daily life. Nevertheless, only recently has it begun to receive robust attention in the discipline of communication studies. The handbook of *Communication and Sport* attends to the recent and rapid growth of scholarship in communication and media studies that features sport as a central site of inquiry. The book attempts to capture a full range of methods, theories, and topics that have come to define the subfield of communication and sport or sports communication. It does so by emphasizing four primary features. First, it foregrounds communication as central to the study of sport. This emphasis helps to distinguish the book from collections in related disciplines such as sociology and also points readers beyond media as the primary or only context for understanding the relationship between communication and sport. Thus, in addition to studies of media effects, mediatization, media framing, and more, readers will also engage with studies in interpersonal, intercultural, organizational, and rhetorical communication. Second, the handbook presents an array of methods, theories, and topics in the effort to chart a comprehensive landscape of communication and sport scholarship. Thus, readers will benefit from empirical, interpretive, and critical work, and they will also see studies drawing on varied texts and sites of inquiry. Third, the handbook of *Communication and Sport* includes a broad range of scholars from around the world. It is therefore neither European nor North American in its primary focus. In addition, the book includes contributors from commonly underrepresented regions in Asia, Africa, and South America. Fourth, the handbook aims to account for both historical trajectories and contemporary areas of interest. In this way, it covers the central topics, debates, and perspectives from the past and also suggests continued and emerging pathways for the future. Collectively, the handbook of *Communication and Sport* aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available.
