Notorious Noir Girls Pin-Up Eva Quim, 2025-04-05 *Big Beautiful Girls in Trouble* Fifty seven full page high resolution renderings hand repainted and retouched AI output featuring a bevy of fictional busty beauties in all their retro movie star glory With 10 additional pages of marketing shots for the fictional film *Eight Deadly Words and Fatally Blonde* directed by the famous fictional director Rusty Mayer who is in no way my fictional version of Russ Meyers No child faces No six fingered or three fingered hands From the books introduction I ve been working with AI image generation for a few years now The tech gets better easier to use but censorship makes some kinds of bodies nearly impossible to generate These bodies actually exist in the real world there are

dozens of flesh and blood girls on instagram that look a lot like my girls but the AI censors consider a certain kind of woman's body to be in poor taste The hell with them Here's to poor taste I've retired my first Noir Pin up book though its contents are still on sale in my 365 image omnibus on sale here This new take showcases generative AI's rapid evolution as well as my own So here's to the big beautiful girls of noir women really but most like being called girls How do I know this Because they're mine and I know how they think I made them up For you Enjoy *CAMA Mystery Sampler Pin-Ups* Eva Quim, 2025-04-29

The CAMA Mystery Backstory It starts in the mid sixties at a Hollywood insider's party at Bohemian Grove Four Great Men Gerry Anderson Irwin Allen Russ Meyer and Roger Corman get into a heated argument with Gloria Steinem about exploitation films featuring female leads Were they empowering or objectifying The four men say empowering Steinem says objectifying Finally frustrated by their refusal to grasp feminism she storms off with Jane Fonda and Warren Beatty The Great Men stay behind and talk all night They may or may not have dropped acid an experimental LSD isomer not 25 but 69 courtesy of Timothy Leary In a collective creative frenzy they brainstorm loglines show ideas and pitches But by morning they abandon it all Too risky too weird too hard to sell Why Because every show starred women The leads the experts the commanders Men were assistants secretaries love interests Pretty feminist right But the women They were all classic Russ Meyer beauties in outrageous sci fi costumes Just like Star Trek miniskirts UFO's Moon Girls purple wigs and silver jumpsuits and Diana Rigg's Avenger's cat suits CAMA was going to be empowering and objectifying Maybe one was the Trojan horse for the other Who can say It all feels firmly morally gray to me Russ's Faster Pussycat Kill Kill was arguably the genre's first film That's one reason he's one of the Four Great Men behind the story But It just won't sell Corman said in the cold clear light of day when everyone was sober And that was that Enter their assistants Rusty Mayer Allan Irwin Andy Garrison and Rupert Coremen with an e not an a These four had definitely done the weird LSD 69 They'd been sitting in the darkened room listening to the debate between Steinem Fonda and the great Men quietly taking notes all night long Fun fact Allen Goldman had changed his name to Allan Irwin just to get close to Irwin Allen and it worked CAMA was going to be short for Coreman Allen Meyer Anderson but the assistants adopted it even though it no longer quite fit Irwin's inverted name wrecks the acronym it should be CIMA Using it anyway was as it turned out a very CAMA thing to do Leary loved the whole idea of thing Upset the Great Men weren't going to pursue the female lead projects he dragged Rusty Mayer through a secret passage into a hidden room where a somber looking long finger nailed man sat with Kleenex boxes on his feet It was Howard Hughes With great difficulty thanks to those three inch fingernails Hughes wrote Mayer a check for 20 million Memo line To make sexy sci fi movies And so footloose and fancy free and incredibly well funded the Not So Fabulous Four were ready to try to make history For seven years they cranked out weird brilliant female led genre shows and B movies that played briefly in drive ins and art house cinemas most of which soon pivoted to porn The CAMA story ends in the bankruptcy of the four directors for a variety of blunders all the completed work is lost or destroyed in a series of freak accidents and

targeted legal actions All that remains are clips here and there fragments of bootlegs production notes and recollections Still reading Okay That was all made up I wrote the texts AI helped me make the images These aren't photographs There are no individual human models involved in the making of these images None of these images reproduce copyrighted photographs or illustrations no image search reveals a match for any of these images because while I have used AI to assist in their creation there are no raw AI images in this book I begin with a customized Stable Diffusion model SDXL2 based a checkpoint merge of several models and my own artwork I generate a thousand images at a whack on my own computer using open source Stable Diffusion software Then the hard part which is curation finding the good ones the one out of a hundred worth working on longer This is half of what you are paying for The other half is the laborious Photoshop repainting and recoloring repainting oh so many hands compositing correcting anatomy through judicious liquefaction and obsessive noodling and a lot of adjustments small and large Puppet warp Background replacement In painting with Adobe's image generation to remove stupid AI crap repair eyes fingernails background elements I work on their expressions until the images come alive spending a lot of time on the eyes The raw AI images never work for me until I tweak them No copyrighted franchise characters or living artist prompts were used in the making of these images They represent a collective effort the prompts a tiny part really the artists work in the models and the curation design and montage and retouching on top of that At this point I'm deep in the hole on this project I've made almost nothing It's a labor of love which I hope you share with me

An Introduction to AI and Intercultural Communication Education Fred Dervin, Hamza R'boul, 2025-09-17 An Introduction to AI and Intercultural Communication Education is the first historic volume to explore the intersection of AI and intercultural communication education interrogating both the transformative possibilities and ethical dilemmas posed by emerging technologies Through diverse scholarly perspectives the book examines how AI tools ranging from language models such as ChatGPT and DeepSeek to generative image systems could reshape the way we teach research and conceptualise interculturality While AI offers innovative opportunities for virtual exchanges automated translation and accessible learning it also risks reinforcing stereotypes Western centric epistemologies and reductive narratives if used uncritically The contributors address pressing questions Can AI facilitate decolonial and reflexive approaches to intercultural communication education or does it inevitably reproduce dominant paradigms How can educators harness the potential of AI while safeguarding against its pitfalls such as algorithmic bias and the erasure of indigenous knowledge systems Combining theoretical critique with case studies the volume highlights the need for ethical frameworks that prioritise epistemic justice pluralistic perspectives and human agency in AI assisted intercultural communication and education This book is an indispensable resource for students researchers and educators interested in the complexities of technology mediated learning as well as the broader fields of higher education intercultural studies and internationalisation and globalisation

Acting the Part E.B. Hunter, Elizabeth Hunter, 2025-10-14 Acting the Part offers a paradigm for understanding how audiences participate in immersive theater from physical spaces like the Globe in London to digital spaces like social virtual reality Reading across twenty first century productions of ancient Greek tragedies and William Shakespeare's plays E B Hunter proposes the concept of enactivity to describe the positionality audiences inhabit when their participation is critical to the narrative but cannot alter its intended course This positionality is that of the archetype the enactment of which is shaped by four production conditions a historically resonant site a canonical source an immersive space and a production specific economy that incentivizes some behaviors and discourages others At the heart of Acting the Part is a framework for identifying how a production's management of these conditions gives rise to a

range of archetypes such as worshiper sleuth cinematographer and others Against the backdrop of an ever increasing push for audience participation Acting the Part sheds new light on the many ways in which productions shape that participation in real time
