America on Foot Kerry Segrave, 2006-03-15 Hippocrates one of history's earliest known physicians once asserted Walking is man's best medicine Over the last three centuries people have endorsed walking for a variety of reasons health among them Before the 1700s people walked as an essential part of their lifestyle With the coming of the transportation revolution and the advent of such conveyances as horse drawn coaches railways and automobiles walking became something that was done increasingly out of choice rather than necessity England's fashionable society engaged in afternoon promenades as a stylish fad While America's vast distances and sparse settlements made this activity impractical Americans nevertheless took to walking in other ways including engaging in long distance walking competitions complete with spectators and prize money Thus for most of the twentieth century the activity of walking was much more than a means of transportation Beginning with the history of walking as a social activity the book discusses the various issues which have affected walkers including increased automobile traffic the attention of the marketing industry and pedestrian regulations The work examines the contemplative psychological and observational qualities of walking as well as famous personalities including Leonardo da Vinci William Shakespeare John Keats and John James Audubon who endorsed these intellectual qualifications During the 1970s fitness boom walking was reinvented yet again becoming an activity of numbers and equations as participants fought to maximize health benefits The book concludes with a legal analysis of pedestrianism as it relates to sharing space with the automobile

They Walk With Us John T. Mainer, 2015-12-11 Can holy blessings be found in a box of donuts Can an angry grieving skinhead learn to become a peacemaker after a chance encounter with a strange old lady Can a rock in a leather bag help a wounded soldier's spirit heal The Gods of old still walk the world They can still be found if you know how to look And they bring blessings and challenges suffering and healing to those who can find them In this collection of short stories John T Mainer explores how the ancient Gods might still be found and how they might bless us as our paths cross theirs From war torn Bosnia and Afghanistan to the peaceful green hills of British Columbia and the bustle of downtown Vancouver he shows us how perhaps we might find them today Even the most ordinary of places can turn out to be not so ordinary at all and even the most ordinary seeming person could turn out to be a God in disguise
