Globe Vs. Flat Earth Debate Zen Garcia,2018-11-26 I believe the most important realization to grasp when examining the question of whether we live in a Helio or geocentric world biblically is to recognize that the Scriptures affirm undeniably that the earth is immobile fixed stationary and unmoving It was established as a foundation for the heavens and according to the order of creation in the Genesis timeline is older than the sun moon or other heavenly luminaries which made on the fourth day of the creation week were placed into under and beneath the solid structure of the firmament which was fitted to it on the second day Confirmation of these postulations can be easily verified by researching what the Israelites and other ancient peoples describe about their beliefs on the cosmology prior to the invention of the heliocentric model Doing Digital Methods Richard Rogers,2019-03-30 From building a URL list to discover internet censorship to making Twitter API outputs tell stories Doing Digital Methods teaches the reader how to use digital devices search engines and social media platforms to study some of the most urgent social issues of our time
