transformations and capture value from digital innovations Handbook of Artificial Intelligence and Robotic Process Automation Al Naqvi, J. Mark Munoz, 2020-11-27 President Putin's explicit declaration that the country that makes progress in artificial intelligence will rule the world has launched a new race for dominance. In this era of cognitive competition and total automation every country understands that it must rapidly adopt AI or go bust. To stay competitive a country must have a strategy. But how should a government proceed? What areas it must focus on? Where should it even start? This book provides answers to these important yet pertinent questions and more. Presenting the viewpoints of global experts and thought leaders on key issues relating to AI and government policies, this book directs us to the future. Smart Farming with AI: Innovations for Sustainable Agriculture Dr. Balveer Singh, Dr. Manohar Saryam, Dr. Shubham Kr. Kulshreshtha, Er. Abhipsa D. Khobragade, 2025-05-03 Smart Farming with AI: Innovations for Sustainable Agriculture is a comprehensive exploration of how artificial intelligence is revolutionizing agriculture to achieve sustainability and efficiency. This book begins with an introduction to AI in agriculture followed by chapters on IoT integration for real time data collection addressing the digital divide and the benefits of AI for farming communities. It delves into advanced topics like AI powered weather forecasting and climate adaptation alongside reducing environmental impacts through smart techniques. Virtual farm modeling, AI driven weed management and intercultural operations are discussed along with water management, soil analysis and fertility enhancement. The book also covers robotics, post harvest loss reduction and automotive landscaping. It explores AI in supply chain management, crop breeding, pest detection and integrated pest management. Additionally, it highlights AI applications in livestock, dairy, aquatic farming and niche areas like mushroom farming and sericulture. Marketing intelligence, supply chain optimization and the integration of AI with traditional knowledge systems are examined. The book concludes with future trends, next generation farming roadmaps, ethical considerations and real world case studies offering a holistic view of AI's transformative potential in agriculture. *Artificial Intelligence Valuation* Roberto Moro-Visconti, 2024-06-01 The book discusses the main valuation methodologies of artificial intelligence. AI Company valuation goes hand in hand with estimating intangible assets like AI which are linked to higher risk and lower collateral value. Their accounting is controversial and the most widely used valuation approaches are based on market income or cost related metrics. The volume discusses in detail the valuation approaches such as the discounted cash flows remembering that cash is king or the empirical market multipliers and comparables. The approaches are complemented by several models including advanced business planning that incorporates machine learning, digital scalability, networks or validating blockchains. The book with a tailor made theoretical background backed by empirical cases shows how to evaluate AI products such as chatbots or virtual assistants for AI established producers, startups or traditional brick and mortar AI users. The comprehensive set of techniques and methodologies will interest researchers, students and practitioners in corporate finance, intellectual property valuation and financial technology. **Human Values, Ethics, and Dignity in the Age of Artificial Intelligence** Chakraborty,
