The Washington Post Index, 1999 Digital Libraries. Research and Technology Advances Nabil Adam, 1996-10-16 This book constitutes a carefully arranged selection of papers presented at the Forum on Research and Technology Advances in Digital Libraries ADL 95 held in McLean Virginia USA in May 1995 Besides 15 revised refereed technical contributions the book presents four invited survey papers by key persons heading institutions and projects essentially advancing the state of the art France Cordova NASA James H Billington The Library of Congress Raj Reddy CMU and Larry Smarr NCSA University of Illinois The technical papers are organized in topical sections on visualization document handling and information retrieval network based information and resource discovery and design issues and prototyping **The Book Buyer**, 1887 *Love in the Time of Self-Publishing* Christine M. Larson, 2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In *Love in the Time of Self Publishing* Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing's most innovative and successful authors Meanwhile a new surge of social media activism called attention to

Romancelandia's historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia's experience Larson says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia's rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members **New York Times Saturday Review of Books and Art ,1969 6-Figure**
