In *Preparing for a Widescreen World*, the book is organized into sections based on the major components of a production: Production, through Post Production, Engineering, Creative Considerations, and includes the experiences, insights, and anecdotes of some of the most experienced High Definition producers, directors, DPs, and engineers in the world. The Guide was written to appeal to people with various levels of technical knowledge. It includes an introductory section on video technology, anecdotal non-technical case studies, and the hard-core technical information that producers and engineers need to know to get their jobs done. REBO has led the way in field testing new equipment and ground-breaking applications for all aspects of high definition video technology since 1986. The company remains the only independent concern in the world involved in every aspect of high definition, from production, post-production, and programming, through education to research and applied technology development.
