The Bacon Jam Cookbook Eat 17, 2016-11-17 Eat 17 is a small independently owned and much loved group of eateries and convenience stores based in east London. It was started by James Brundle and Chris O'Connor, two brothers in their early twenties who with only 5,000 transformed a run-down off-license in Walthamstow into a multi-million pound retail revolution and world-class brand. Eat 17's two shops are London fixtures, and the brothers recently took out a lease on a third site. Eat 17 has also recently started selling to a supermarket chain in Hong Kong and on mainland China. The Bacon Jam Cookbook, as well as providing many recipes from Eat 17 and their suppliers, also describes what the brothers have achieved and how. It is also incidentally a paean to bacon, just about everyone's favourite foodstuff. <http://www.eat17baconjam.co.uk> <http://www.eat17.co.uk>

Neuromined Robert Edward Grant, Michael Ashley, 2023-07-25 Are advances in technology working for us or against us When our phones become our keys to access everything will our lives be more convenient or more at the mercy of whoever can hack into our devices Will self driving cars help us maximize our time and get to our destination safely or will they erode the autonomy and freedom we feel when we drive ourselves What happens if the government in the name of public health gains access to the data in our handy fitness trackers and uses it to reward or limit us In Neuromined data sovereignty advocate Robert Edward Grant and prolific technology author Michael Ashley team up to explore significant questions such as these Each chapter imagines a near future surveillance dystopia through a riveting fictional tale and provides a companion analysis connecting the story to our present reality Entertaining and provoking this book shows readers how the technology

that has promised a lifetime of convenience has also constrained a public's individual options and agency. But all hope is not lost. Neuromined at its core demonstrates how technology when viewed through a different ethos and used by a conscientious public can instead provide greater autonomy and greater access to liberation.
