Signs in Society Richard J. Parmentier, 1994-06-22 Richard Parmentier takes up Ferdinand de Saussure's challenge to study the life of signs in society by using semiotic tools proposed by Charles Sanders Peirce. He studies how semiotic theory can illuminate highly complex social and cultural practices. **Translation as Scholarship** Jay Crisostomo, 2019-01-14 In the first half of the 2d millennium BCE translation occasionally depicted semantically incongruous correspondences. Such cases reflect ancient scribes substantiating their virtuosity with cuneiform writing by capitalizing on phonologic graphemic semantic and other resemblances in the interlingual space. These scholar scribes employed an essential scribal practice: analogical hermeneutics, an interpretative activity grounded in analogical reasoning and empowered by the potentiality of the cuneiform script. Scribal education systematized such practices, allowing scribes to utilize these habits in copying compositions and creating translations. In scribal education analogical hermeneutics is exemplified in the word list Izi, both in its structure and in its occasional bilingualism. By examining Izi as a product of the social field of scribal education, this book argues that scribes used analogical hermeneutics to cultivate their craft and establish themselves as knowledgeable scribes. Within a linguistic epistemology of cuneiform scribal culture, translation is a tool in the hands of a knowledgeable scholar.

Dao and Sign in History Daniel Fried, 2018-10-29 From its earliest origins in the Dao De Jing, Daoism has been known as a movement that is skeptical of the ability of language to fully express the truth. While many scholars have compared the earliest works of Daoism to language skeptical movements in twentieth-century European philosophy and have debated to what degree early Daoism does or does not resemble these recent movements, Daniel Fried breaks new ground by examining a much broader array of Daoist materials from ancient and medieval China and showing how these works influenced ideas about language in medieval religion, literature, and politics. Through an extended comparison with a broad sample of European philosophical works, the book explores how ideas about language grow out of a given historical moment and advances a larger argument about how philosophical and religious ideas cannot be divided into content and context. Signs In Law - A Source Book Jan M. Broekman, Larry Catá Backer, 2014-11-06 This volume provides a critical roadmap through the major historical sources of legal semiotics as we know them today. The history of legal semiotics, now at least a century old, has never been written: a non-event itself pregnant with semiotic possibility. As a consequence, its sources are seldom clearly exposed, and as word, object, and meaning change, are sometimes lost. They reach from an English translation of the 1916 inaugural lecture of the first Chair in Legal Significance at the Amsterdam University via mid-20th-century studies on property or contract to equally fascinating essays on contemporary semiotic problems produced by former students of the Roberta Kvelson Semiotics Roundtable Seminar at Penn State University in 2012 and 2013. Together, the materials in this book weave the fabric of semiotics and signification: two names for the unfolding of semiotics in law and legal discourse at least until the second half of the 20th century, and both of which covered a lawyer's focus on sign and meaning in law. The latter is

embedded within the cultural imperatives of the civilization that gave these terms meaning and made them an effective tool for the dissection of law its reconstitution as an instrument to be used by the lawyer to advance the interests of her clients and for judges as a means to restructure language as a narrative of law whose power could bend behavior to its strictures Legal semiotics has become an indispensable part of the elite lawyer s toolkit and a fundamental approach to analysis of legal texts Two previous volumes published in 2011 and 2012 explored the conceptual methodological and epistemological progress in the field of legal semiotics the modern forms of semiotics study and the mechanics of meaning making processes by lawyers Yet the great lessons of semiotics requires a focus on the origins of the concepts and frameworks that would become contemporary legal semiotics its origins as an object of the consciousness of meaning making one whose roots as lessons for the oracular conversations of law are expanded in this volume

Writing Around the Ancient Mediterranean

Philippa M. Steele, Philip J. Boyes, 2022-10-06 Writing in the ancient Mediterranean existed against a backdrop of very high levels of interaction and contact In the societies around its shores writing was a dynamic practice that could serve many purposes from a tool used by elites to control resources and establish their power bases to a symbol of local identity and a means of conveying complex information and ideas This volume presents a group of papers by members of the Contexts of and Relations between Early Writing Systems CREWS research team and visiting fellows offering a range of different perspectives and approaches to problems of writing in the ancient Mediterranean They focus on practices viewing writing as something that people do within a wider social and cultural context and on adaptations considering the ways in which writing changed and was changed by the people using it

Remembering Emmett Till Dave Tell, 2019-05-01 Communications professor Dave Tell explores the thin line between honoring and exploiting a murder victim s memory in *Remembering Emmet Till* Take a drive through the Mississippi Delta today and you ll find a landscape dotted with memorials to major figures and events from the civil rights movement Perhaps the most chilling are those devoted to the murder of Emmett Till a tragedy of hate and injustice that became a beacon in the fight for racial equality The ways this event is remembered have been fraught from the beginning revealing currents of controversy patronage and racism lurking just behind the placid facades of historical markers In *Remembering Emmett Till* Dave Tell gives us five accounts of the commemoration of this infamous crime In a development no one could have foreseen Till s murder one of the darkest moments in the region s history has become an economic driver for the Delta Historical tourism has transformed seemingly innocuous places like bridges boat landings gas stations and riverbeds into sites of racial politics reminders of the still unsettled question of how best to remember the victim of this heinous crime Tell builds an insightful and persuasive case for how these memorials have altered the Delta s physical and cultural landscape drawing potent connections between the dawn of the civil rights era and our own moment of renewed fire for racial justice A fine history of racism poverty and memory in the Mississippi Delta told through the lynching of Emmett Till a black 14 year old from Chicago whose murder in 1955 made him an early martyr of the civil

rights movement The Economist The Master of Signs Alexander Hollmann,2011 In Herodotus s Histories almost anything is capable of being invested with meaning human speech gifts markings and even the human body This book represents an unprecedented examination of signs and their interpreters as well as the terminology Herodotus uses to describe sign transmission reception and decoding **Semiotics and International Scholarship: Towards a Language of Theory** J.P. The New Testament in Comparison John M.G. Barclay,B.G. White,2020-01-23 The nine essays in this volume written by leading international scholars in New Testament studies examine in new depth the method of comparison so frequently deployed in the study of the New Testament They raise and reflect on deep questions on the possibility and validity of such comparative exercise on the methods that are most effective and intellectually defensible on the purpose of such comparison and on the perils and pitfalls in such exercises Addressing these questions at both a theoretical hermeneutical level and through case studies of actual examples the book provides a much needed and up to date methodological resource for the numerous comparative projects spawned by New Testament studies throughout the world **Religion, Literature, and Scholarship: The Sumerian Composition Nanše and the Birds** Niek Veldhuis,2021-10-11 This book uses insights from religious studies literary theory and the history of science for understanding the Sumerian composition Nan e and the Birds in the context of the Old Babylonian scribal school The discussions of Babylonian religion literature and scholarship focus on the usefulness and relevance of these modern concepts for categorizing the ancient text The volume presents the first critical edition of Nan e and the Birds as well as editions of the hymn Nan e B and all third millennium and Old Babylonian lexical lists of birds It includes 37 plates with photographs and line drawings including many previously unpublished tablets The final chapter discusses the identity and orthography of all Sumerian bird names in literary administrative and lexical texts

The State Records of North Carolina: 1662-1712-1788-1790 North Carolina,1886 **The World in a City** Paul Anisef,C. Michael Lanphier,2003-01-01 Toronto is perhaps the most multicultural city in the world The process of settlement and integration in modern day Toronto is however more difficult for recent immigrants than it was for those newcomers arriving in previous decades Many challenges face newly settled immigrants top among them access to healthcare education employment housing and other economic and community services The concept of social exclusion opens up promising ways to analyze the various challenges facing newcomers and The World in a City explores Toronto s ability to sustain a civic society This collection of essays highlights why the need to pay more attention to certain at risk groups and the importance of adapting policy to fit the changing settlement and clustering patterns of newcomers is of crucial importance The authors findings demonstrate that there are many obstacles to providing opportunity for immigrants low resource bases in particular Toronto they suggest does not provide a level playing field for its newly arrived inhabitants and in failing to recognize the particular needs of new communities fails to ensure a growth that would be of immense benefit to the city as a whole

"The Place is Too Small for Us" R. P. Gordon, 1995 The title of this volume is of course taken from 2 Kgs 6 1 where the prophetic group about Elisha point out that their accommodation is too cramped It seemed an apt comment on the capacity of any proposed volume to house and adequate representation of the work that has recently been done on Israelite prophecy To this I now have to add the all too ironic confession that the so called pre classical prophets including Elisha and his colleagues could not be accommodated in the present volume Let no one complain about being misled by the subtitle when the title is so honest there are thirty six items of varying length and they divide almost equally between journal articles and excerpts from volumes some of these of composite authorship Naturally they represent one individual's selection from within his personal reading and this itself accounts for only a fraction of the vast scholarly output on the prophets whether since 1875 or since 1975 It will be apparent at several places in the volume that I take with great seriousness the study of Near Eastern non Israelite prophecy as background to the Israelite phenomenon so that the first short section The Near Eastern Background was unavoidable Editor's preface

From Scribes to Scholars Yakir Paz, 2022-11-21 Yakir Paz shows that the ancient Homeric commentaries had a major impact on the formation of rabbinic biblical commentaries in the second and third century CE This impact is discernible in the terminology and exegetical techniques used by the rabbis as well as in their didactic and literary approaches

A Comparison of Navigator Activities in the High and Mid-latitudes Julien M. Christensen, 1950

The Gods Rich in Praise Christopher Metcalf, 2015-04-30 Many scholars today believe that early Greek literature as represented by the great poems of Homer and Hesiod was to some extent inspired by texts from the neighbouring civilizations of the ancient Near East especially Mesopotamia It is true that in the case of religious poetry early Greek poets sang about their gods in ways that resemble those of Sumerian or Akkadian hymns from Mesopotamia but does this mean that the latter influenced the former and if so how This volume is the first to attempt an answer to these questions by undertaking a detailed study of the ancient texts in their original languages from Sumerian poetry in the 20th century BC to Greek sources from the times of Homer Hesiod

Pindar and Aeschylus The Gods Rich in Praise presents the core groups of sources from the ancient Near East describing the main features of style and content of Sumerian and Akkadian religious poetry and showing how certain compositions were translated and adapted beyond Mesopotamia It proceeds by comparing selected elements of form and content hymnic openings negative predication the birth of Aphrodite in the Theogony of Hesiod and the origins and development of a phrase in Hittite prayers and the Iliad of Homer The volume concludes that in terms of form and style early Greek religious poetry was probably not indebted to ancient Near Eastern models but also argues that such influence may nevertheless be perceived in certain closely defined instances particularly where supplementary evidence from other ancient sources is available and where the extant sources permit a reconstruction of the process of translation and adaptation **Pesher and Hypomnema: A Comparison of Two Commentary Traditions from the Hellenistic-Roman Period** Pieter B.

Hartog,2017-11-06 In Pesher and Hypomnema Pieter B Hartog compares ancient Jewish commentaries on the Hebrew Bible with papyrus commentaries on the Iliad Hartog shows that members of the Qumran movement adopted classical commentary writing and adapted it to their own needs *Federal Register* ,2007-03
