Seeing Others Michèle Lamont, 2025-01-07 A thoughtful recipe for building social justice Kirkus Reviews from acclaimed Harvard sociologist Michèle Lamont that makes the case for reexamining what we value the quest for respect in an age that has been defined by growing inequality and the obsolescence of the American dream In this capstone work Michèle Lamont unpacks the power of recognition rendering others as visible and valued by drawing on nearly forty years of research and new interviews with young adults and cultural icons from Nikole Hannah Jones and Cornel West to Michael Schur and Roxane Gay Decades of neoliberalism have negatively impacted our sense of self worth up and down the income ladder just as the American dream has become out of reach for most people By prioritizing material and professional success we judge ourselves and others in terms of self reliance competition and diplomas The foregrounding of these attributes of the upper middle class in our values system feeds into the marginalization of workers people of color LGBTQIA individuals and minority groups The solution Lamont argues is to shift our focus towards what we have in common while actively working to recognize the diverse ways one can live a life Building on Lamont's lifetime of expertise and revelatory connections between broad ranging issues *Seeing Others* delivers realistic sources of hope by reducing stigma we put change within reach Just as Robert Putnam's *Bowling Alone* did for a previous generation *Seeing Others* strikes at the heart of our modern struggles and illuminates an inclusive path forward with new ways for understanding our world
