Popović,Rainer Kulms,2024-10-08 Online platforms and their ecosystems are the cornerstone of the digital economy They have brought forth positive network effects But they are also known for their information asymmetries their potential for market failures and their problematic relationship with data protection law This volume provides a detailed analysis of the current process of repositioning online platforms in the digital economy as regulators express concerns about the evolution from mere intermediaries to gatekeepers The exclusive reliance on competition law instruments has proven to be incapable of coping with cases of platforms abusing their market power Therefore the book explores the European Union s new approach to digital markets consisting in the adoption or drafting of new legislative instruments such as the Digital Markets Act Digital Services Act Proposal of AI Act Proposal of Data Act Proposal of Data Governance Act The EU s emphasis

on new regulatory ex ante instruments as in the Digital Markets Act calls for an assessment of their overlap or their interface with existing supranational and national competition rules The book transcends mere competition law thinking by exploring the status of online platforms from the perspective of trade law rules unfair competition law data protection rules and intellectual property law But in view of the global reach of online platforms the risks of a jurisdiction wise approach with conflicting regulatory strategies are all too clear The volume therefore includes comparative studies on Australia and the USA The potential impact of regulatory policy choices will also be assessed from the economic perspective The book's message is not to be confined to researchers and academics It is also of great importance to practitioners in the digital sector who stand to benefit from the analysis of the law of online platforms undertaken by a working group of renowned authors coming from different jurisdictions

The Armed Jew Adam L. Fuller, 2025-06-30 In the face of rising anti-Semitic violence and hate crimes The Armed Jew explores the essential role of gun ownership in the Jewish experience both historically and in contemporary society With rising threats to Jewish communities worldwide this book argues that the right to bear arms is not just a matter of self defense but an integral part of Jewish history and survival Despite the increasingly manifest threats to American Jews in particular they remain among one of the demographic groups that are least likely to own firearms which leaves them defenseless and further invites aggression Adam L Fuller argues that guns have been vital tools in protecting Jewish communities for centuries From the medieval self defense of Jewish settlements to Jewish gangsters vigilantes soldiers law officers and resistance efforts during the Holocaust guns have been crucial in the preservation of life and dignity Drawing on a careful study of Jewish sociocultural and religious traditions in dialogue with Jewish historical experience as well as conversations with Jewish gun owners Fuller makes a compelling argument for why Jews should embrace their right to own and carry firearms as part of their broader struggle for safety and autonomy The Armed Jew challenges assumptions empowers Jewish communities and provides a thought provoking perspective on the intersection of faith identity and self defense in the modern world

The Rise of the Algorithms John M. Jordan, 2024-03-19 The meteoric rise of online video is reshaping the competition for human attention The Rise of the Algorithms argues that this new technology has changed

the way we interact with others our relationships with public institutions and our very own behaviors and psyches In tracing the origins and evolution of online video John M Jordan examines the mechanics and the ethical stakes of online video platforms especially YouTube and TikTok but also others such as Twitch Tracing the use of algorithms pioneered by Facebook and Google and so successfully exploited by TikTok s corporate parent ByteDance Jordan shows how these platforms now engineer human behavior with consequences for culture politics and identity Jordan argues that we are at an inflection point Until now we have proved as a society ill prepared or unwilling to address such problems as the power of digital platforms the personal cost of viral celebrity the invasion of privacy and the proliferation of disinformation The Rise of the Algorithms combines this urgent assessment with a clear eyed discussion of present challenges and recommendations for reclaiming our online futures A valuable resource for understanding the transformations that have been and will be brought by YouTube TikTok and similar platforms Jordan s timely book is a vital work for anyone who uses the internet and especially for policy makers technologists communication and media specialists and researchers who have a direct hand in determining the future of our online world

The Top Books of the Year Youtube Buy Online Warranty The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have charmed audiences this year. Youtube Buy Online Warranty : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Youtube Buy Online Warranty : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
