You should start marketing your operational activities in social media because every year more and more potential customers start buying on these platforms. Instagram has long ceased to be considered just a meeting place on the Internet; it has become a tool for selling products, targeting and acquiring thousands of customers from the young generation. Every business that is not present on social media loses thousands if not hundreds of thousands of dollars a month. Currently, the Instagram platform in the world is used by over a billion active users, and Instagram Stories are viewed daily by over 500 million people. People share their opinions, information, set up accounts on a specific topic, build huge communities, but also make purchases like any other online store. Buying through Instagram is becoming more and more popular, which is why companies, entrepreneurs, and public figures adapt their marketing to the constantly changing world in fear of falling out of the market. Think about whether you and your business can afford to lose potential customers just because you don't build relationships with them through operational activities on the Instagram platform.
