This is the first in an Ooba monograph series providing practical assistance for Off Off Broadway theatres. This booklet gives basic procedures for operating an Off Off Broadway box office serving a general admission theatre with 100 seats or less. Small music dance multi media performance groups and community arts organizations will also find the information given here helpful. Topics covered include tickets physical set up reservations sales and box office closing. While the main purpose of any box office is to distribute tickets it must also serve as a control to make possible an accurate accounting system for tickets purchased and money received. In addition the box office is a potent public relations tool for any theatre it is often the only place where the audience meets a personal representative of the theatre. If your box office is well run you can quickly answer these questions:

- 1 Why is there so little cash to deposit when the reservation book indicated the house was nearly sold out last night?
- 2 How much money did we take in last night? Last week? During the last production? Last season?
- 3 What percentage of this season's ticket sales was full price? How does that compare to last season's figures?
- 4 What percentage of the audience buys tickets with Theatre Development Fund (TDF) Vouchers (see footnote p 38)? Does that have mailing list implications?
- 5 Are we fulfilling City and State regulations?
- 6 Do we have accurate records for an auditor funding source or legal authority that demonstrate the existence of adequate procedures and controls?

[Ticket Scalping](#) Kerry Segrave,2006-11-15 Ticket scalping is as much an American staple as apple pie Beginning as early as the mid 1800s scalpers known as sidewalk men were charging all the traffic would bear for event tickets Although these speculators were generally viewed as pariahs and public opinion was against the practice legal attempts to limit their activities were far from successful Boston enacted laws as early as 1873 while Pennsylvania followed suit in 1884 Still such measures did little good since some laws were declared unconstitutional and for the ones that were upheld the fines were negligible with jail time rarely served Over the years as moral objections to scalping dimmed the public became more tolerant as the practice became increasingly prevalent By the 1990s the capitalist mantras of free market and economic principles of supply and demand were even being used to justify the practice This volume details the ways in which scalping has changed over the years from a one man business to an agency controlled enterprise from performances by Jenny Lind to Billy Joel The book examines the general situation public opinion and legal perception of scalping for four distinct periods 1850 1899 1900 1917 1918 1949 and 1950 2005 Emphasis is placed on the ways in which public and legal perception of the practice has evolved over this period Scalping slowly gaining a more positive status has become more accepted as part of the economic practice of free markets
