Dear Mr. Deniro,

Please accept my enclosed application for the position of administrative assistant at Tech Corporation. Having read through your job description, I am thrilled to be applying for this position as my 6 years of experience and skillset match the requirements you're looking for.

At my current company, Redford & Sons, I am valued by the CEO and his staff as a critical support pillar for the team, keeping meetings, papers, travel arrangements, and office items organized at all times. I spearheaded the effort to "go digital" for almost all planning and paperwork, increasing office efficiency to the point of saving \$3,000 per year in contracted labor expenses.

I was also tasked with training two administrative assistants in my previous position, proving that I can perform the all necessary duties described in your job description, and even train others in how to perform in this role effectively, should the need arise.

I would love to have to opportunity to join the team at Tech Company and use my skills to create an efficient and stress free office environment for your executives. I believe I can meet and exceed the expectations you have for this role. I look forward to speaking more with you about my candidacy. Feel free to contact me at any time.

Best,
Kelly Blackwell

Investment Banking Joshua Rosenbaum, Joshua Pearl, 2020-03-20

A timely update to the global bestselling book on investment banking and valuation this new edition reflects valuable contributions from Nasdaq and the global law firm Latham Watkins LLP plus access to the online valuation models and course

In the constantly evolving world of finance a solid technical foundation is an essential tool for success Due to the fast paced nature of this world however no one was able to take the time to properly codify its lifeblood namely valuation and dealmaking

Rosenbaum and Pearl originally responded to this need in 2009 by writing the first edition of the book that they wish had existed when they were trying to break into Wall Street

Investment Banking Valuation LBOs M A and IPOs 3rd Edition is a highly accessible and authoritative book written by investment bankers that explains how to perform the valuation work and financial analysis at the core of Wall Street comparable companies precedent transactions DCF LBO M A analysis and now IPO analytics and valuation

Using a step by step how to approach for each methodology the authors build a chronological knowledge base and define key terms financial concepts and processes throughout the book

The genesis for the original book stemmed from the authors personal experiences as students interviewing for investment banking positions As they both independently went through the rigorous process they realized that their classroom experiences were a step removed from how valuation and financial analysis were performed in real world situations

Consequently they created this book to provide a leg up to those individuals seeking or beginning careers on Wall Street from students at undergraduate universities and graduate schools to career changers looking to break into finance

Now over 10 years after the release of the first edition the book is more relevant and topical than ever It is used in over 200 universities globally and has become a go to resource for investment banks private equity investment firms and corporations undertaking M A transactions LBOs IPOs restructurings and investment decisions

While the fundamentals haven't changed the environment must adapt to changing market developments and conditions As a result Rosenbaum and Pearl have updated their widely adopted book accordingly turning the latest edition of **Investment Banking Valuation LBOs M A and IPOs** into a unique and comprehensive training package which includes

- Two new chapters covering IPOs plus insightful contributions from Nasdaq the leading U S exchange and technology provider for IPOs and new listings and global law firm Latham Watkins LLP
