The Bargain Buyer's Guide 2003 Elizabeth Cline,2002-09 The Consumer s Bible to big savings online and by mail
Designing Online Identities Clay Andres,2002 **Korea South Investment and Business Guide** IBP USA,2013-08

2011 Updated Reprint Updated Annually Korea South Investment Business Guide *From the Great Wall to Wall Street* Wei Yen, 2016-11-09 Wei Yen explores how differences in world views between Eastern and Western thought and culture have on management and leadership behaviors In *The Geography of Thought* Richard Nisbett showed how the thought and culture of the East is rooted in Chinese Confucian ideals while that of the West goes back to the early Greeks In *From Great Wall to Wall Street* Wei Yen explores how these differences impact today's leadership and management practices He delves deeply into the two cultures and their philosophical roots and explains why there can exist significant misunderstandings between the two camps Yen was born in China raised in Hong Kong educated both there and in the US and then spent half his working life in the US and half in Asia From his vantage point straddling both cultures he compares and contrasts the pragmatic wholistic Chinese or Asian management style with the rational and analytical Western management style He shows their pros and cons the areas where they differ and situations where one may be more successful than the other Yen argues that understanding traditional Chinese culture and how it affects management behaviors and current events can help decision makers make better decisions in business finance and politics He further combines culture with credit analysis to argue that it is unlikely that China will suffer a financial collapse despite a slowing economy and high debt levels Equally he shows how that same philosophical traditions also lie behind China's inability to innovate or project the soft power that the West's globally successful popular culture has achieved How can the West take advantage of China's epic rise to strike win-win outcomes How can the Chinese be more integrated into the global community and become a better global citizen in the future How can policy makers make more realistic policies None of these can be accomplished without first understanding where each other is coming from
