Health Promotion in the Universities and Other Educational Settings Miguel Corbí, Antoni Aguilo, Carmen Gallardo Pino, Mario Del Líbano, Carlos Emanuel Rodriguez-Diaz, Hiram V. Arroyo Acevedo, 2025-09-17 The promotion of health in universities is of great importance as it allows for the encouragement of healthy lifestyles and the prevention of diseases among students teaching staff and administrative personnel The university is a conducive environment for the promotion of healthy habits since firstly it is usually the moment when the students make decisions under their responsibility and secondly it is a place where academic sports and social activities take place so it is also an ideal moment to promote changes that can be transferred to society and the rest of the individual's life Health promotion in universities can cover several areas such as healthy eating physical exercise prevention of addictions emotional and social mental health among others It can also involve the entire university community from students to administrative and teaching staff In the case of students it is essential as it is a period of change and habit formation and the fact that they will be the future decision makers of society Consultation and Mental Health Interventions in School Settings Ester Cole, Maria Kokai, 2021-11-30 Optimize the delivery of school psychology services with this book Presents a unique consultation and intervention model Interlinks primary secondary and tertiary prevention and intervention applications Addresses specific student and school level needs Online resources and handouts More about the book This volume written by leading psychology practitioners and academics has been designed to meet the ever growing challenges faced by educational systems to address the mental health learning and socialization needs of students Using a unique and comprehensive consultation and intervention model the chapters provide evidence based guidance that interlinks primary secondary and tertiary prevention and intervention applications that allow for systematic consultation planning and cost effective services The clear and easy to apply model is used to look at specific student needs that are commonly encountered in schools e.g. depression ADHD giftedness and at issues that require school level interventions e.g. diversity promoting resilience Practitioners will appreciate the numerous downloadable practical resources and tools for hands on applications that are available online to purchasers of the book This book is an invaluable resource for school psychologists and mental health service providers as well as for academics involved in training pre service practitioners The materials for this book can be downloaded from the Hogrefe website after registration Oxford Textbook of Community Mental Health Graham Thornicroft, Robert E. Drake, Oye Gureje, Kim T. Mueser, George Szmukler, 2025-01-11 Community mental health has evolved as a field of practice and as a research discipline during the last 50 years Now newer concepts such as shared decision making the recovery approach evidence based practice implementation science telemedicine and mobile device technology are adding layers of texture to this domain These developments require an ever more sophisticated understanding of the very latest evidence and experience in community mental health care to respond to the values goals needs and preferences of people with lived experience of mental health conditions This second edition of the

Oxford Textbook of Community Mental Health addresses recent changes and achievements current controversies and future challenges while emphasizing areas of convergence where social values health medical sciences and policy formation converge and meet This edition also features a new section on global mental health to emphasise what is known about the mental health gap in low and middle income countries and the evidence of how to respond to these huge global challenges Like community mental health care itself the authors are multidisciplinary international and bring both clinical and scientific perspectives to this volume This textbook will be an invaluable and authoritative source of reference for all mental health specialists for people with mental health conditions for staff in non governmental and governmental organisations and indeed for all who are dedicated to creating better mental health services and systems
