

Reading Comprehension

Read the short passage and answer the questions.

The Dog and the Shadow

It happened that a Dog had got a piece of meat and was carrying it home in his mouth to eat it in peace. Now on his way home, he had to cross a plank lying across a running brook. As he crossed, he looked down and saw his own shadow reflected in the water beneath. Thinking it was another dog with another piece of meat, he made up his mind to have that also. So he made a snap at the shadow in the water, but as he opened his mouth the piece of meat fell out, dropped into the water and was never seen more.

1. What animal was crossing a board?

2. What did the dog have in his mouth?

3. What did the dog see in the running brook?

Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1. John D. Bonvillian, Nicole Kissane Lee, Tracy T. Dooley, Filip T. Loncke, 2020-07-30 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages It is the culmination of over twenty years of research and development by the authors The Simplified Sign System has been developed and tested for ease of sign comprehension memorization and formation by limiting the complexity of the motor skills required to form each sign and by ensuring that each sign visually resembles the meaning it conveys Volume 1

outlines the research underpinning and informing the project and places the Simplified Sign System in a wider context of sign usage historically and by different populations Volume 2 presents the lexicon of signs totalling approximately 1000 signs each with a clear illustration and a written description of how the sign is formed as well as a memory aid that connects the sign visually to the meaning that it conveys While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities cerebral palsy autism or aphasia it may also assist the communication needs of a wider audience such as healthcare professionals aid workers military personnel travellers or parents and children who have not yet mastered spoken language The system also has been shown to enhance learning for individuals studying a foreign language Lucid and comprehensive this work constitutes a valuable resource that will enhance the communicative interactions of many different people and will be of great interest to researchers and educators alike

Heritage and School Language

Literacy Development in Migrant Children Raphael Berthele, Amelia Lambelet, 2017-11-15 This book discusses literacy development in heritage language speakers and presents the results of four different quantitative studies that investigate the transfer of literacy skills in bi and multilingual language development The empirical studies focus on different populations of pupils most of them located in various parts of Switzerland and emphasise the potential residing in shared or transferred resources between their heritage languages and the languages spoken in the region to which their family has immigrated The goal of all studies was to gain an understanding of the factors both linguistic and non linguistic in nature that contribute to the development of language skills in both the heritage and school languages Theoretical assumptions are put to the test via hypothesis testing and the generally shared assumptions on bilingual education are questioned based on the data Furthermore methodological problems in the investigation of linguistic interdependence are discussed This book contributes to the scholarly investigation of potential beneficial effects in academic proficiency across languages in migrant children

An Investigation of Teachers' Questions and Tasks to Develop Reading Comprehension Ghazali

Mustapha, 2020-02-03 Teachers are constantly seeking ways to improve their teaching and thereby enhance the learning of their students One method of doing this is to bring critical and creative thinking skills to the forefront of the curriculum This has been emphasized by the Malaysian Ministry of Education via the KBSM syllabus in order to teach critical and creative thinking by considering the use of programs like Bloom's taxonomy of educational objectives in classroom practice This study demonstrates how the higher order skills can be integrated into the secondary school reading curriculum The main aim of the study is to investigate how teachers design reading comprehension questions RCQs and reading comprehension tasks RCTs in relation to the demands of higher order thinking to produce students with critical minds It focuses primarily on the use of COGAFF taxonomy a cognitive affective taxonomy adapted from Bloom's and Krathwohl's to formulate higher order reading questions and tasks as a means to develop critical and creative thinking skills In a pilot study in Britain with forty Malaysian teachers and in the main field study in Malaysia 150 subjects teachers and student teachers have yielded about

one thousand RCQs and one thousand RCTs In line with many research findings of question and task design 91 2% of the RCQs and 83 6% of RCTs produced during the pretest were of low order types Subjects attended a workshop emphasizing question and task designing using the COGAFF taxonomy Dramatically during the posttest 74 4% of the RCQs and 80 6% of the RCTs were transformed into higher order inferential forms The other major thrust of the study is to demonstrate how higher order questions can be used to design equally higher order tasks that can be utilized as a thinking skills approach in the teaching of reading comprehension lessons in secondary schools Thinking tools and strategies as suggested by Beyer Guilford Gardner and several others and their implications for the teaching of reading comprehension and training of teachers in Malaysia are also discussed
