Reviews of National Policies for Education Chile's International Scholarship Programme OECD, The World Bank, 2010-09-02 This report reviews Chile's scholarship abroad scheme and provides an overview of best practices for scholarship programmes at the international level. In addition, it analyses the design and institutional framework of the Chilean programme and recommends ways to maintain and improve the scheme.

Scholarship, Money, and Prose Michael Chibnik, 2020-04-17 An illuminating guide to publishing a scholarly journal written by a former editor in chief. *American Anthropologist* is the flagship journal of the American Anthropological Association, published quarterly, reaching more than 12,000 readers with each issue and representing four distinct subfields. The journal publishes articles that add to, integrate, synthesize, and interpret anthropological knowledge; commentaries and essays on issues of importance to the discipline; and reviews of books, films, sound recordings, and exhibits. From 2012 to 2016, Michael Chibnik was editor in chief of *American Anthropologist*. In *Scholarship, Money, and Prose*, he writes a candid account of the complex and challenging work entailed in its production. Providing detailed ethnographic and historical descriptions of the operations of a major journal and behind the scenes, anecdotes of his experiences, Chibnik makes transparent the work of an editor in chief. He reveals how he assembled diverse materials, assessed contradictory peer reviews of manuscripts submitted for publication, and collaborated with authors to improve the legibility and clarity of their articles. He also examines controversies that emerged from his columns on open access and biological anthropology and the inclusion of politically charged material in the journal. *Scholarship, Money, and Prose* sheds light on two aspects of successful editing that are common to academic journals, whatever their subject matter. The first task is to strike a balance among different theoretical perspectives and topical specialties. This pressure is particularly salient in a field like anthropology, in which scholars differ greatly in the extent to which they adopt a scientific or humanistic perspective. Second, editors must attend carefully to the need to keep costs down and revenues up in an economic environment in which libraries are cutting subscriptions and publishers are considering the future sustainability of journals. Relevant to a wide range of disciplines, *Scholarship, Money, and Prose* serves as a window onto the past, present, and future of scholarly publishing.
