Young Talent Innovation Telefónica Scholarship. Measuring the Impact of Innovation on

Corporations Vicente Manzano, David, Reigosa Domínguez, Pablo, 2022-09-06 In this research project we will try to measure the impact of innovation in corporations by using a statistical device known as the Technology Acceptance Model In order to cover a sample we will focus on Generation Z which is set to be the future investment force The objective of the project is to obtain a reliable behavioral pattern and consumer profile acquired through a process of survey research and testing In these surveys we will measure the relevance of key Industry 4.0 technologies for the selected sample as well as the most relevant

aspects they value when using them Once the survey has been collected we will weigh the results and try to interpret the relationships between the different answers seeking to corroborate the questions posed at the beginning of the project This work lays the foundations for further research due to the multiple limitations we have encountered among which time and knowledge limitations stand out The future project will provide answers to the unknowns that have not yet been corroborated and require complex statistical processes
