Cocoa Richard Wentk, 2010-09-14 Develop applications for Mac OS X with this Developer Reference guide Make a clean transition to programming in Apple environments using the elegant and dynamic programming API Cocoa and this practical guide Written by a seasoned Mac expert this book shows you how to write programs in Cocoa for the rapidly expanding world of Macintosh users Part of the Developer Reference series this book prepares you for a productive programming experience on today's fastest growing platform Cocoa is a programming framework for developing in Apple environments including Mac OS X 10.6 Snow Leopard This book covers all the major information you need to start developing dynamic applications for Mac OS X Master all Cocoa tools including Xcode and working with Objective C Includes full coverage of the Cocoa API Xcode and Objective C as well as programming for Apple's latest OS X Snow Leopard Companion Web site includes all code files Programming for Apple's Macintosh is a growing career field This essential guide one of the most comprehensive on Cocoa will help you quickly become productive

Apple Interface Mysteries Michael E. Cohen, 2020-04-20 Solve usability puzzles on Macs iPhones and iPads Apple devices are supposed to be easy to use and they generally are at least for basic things But over the years as features have multiplied exponentially and hardware has changed dramatically the user interfaces of Macs iPhones and iPads among other Apple products have become increasingly inscrutable This book explores the mysteries of how and why things are the way they are now and shows you how you can solve your own Apple usability puzzles When Apple introduced the Mac in 1984 its novel graphical interface revolutionized the way people thought about computers Thanks to the Mac's graphical user interface people quickly realized a computer could be both powerful and easy to use That legendary ease of use which carried on through the iPod iPhone iPad and other products helped Apple become the huge cultural force it is today And yet millions of people struggle to make sense of their modern Apple devices Indeed that's the whole reason Take Control Books has existed since 2003 Users wonder how to accomplish seemingly basic tasks where to find important menu commands why the screen is scrolling the wrong way how to type characters that aren't on the keyboard what gesture they can use to perform common operations on an iPhone or iPad and why controls they want to use frequently are hidden What happened to that ease of use and why have Apple's user interfaces become so mysterious Apple Interface Mysteries aims to answer all those questions and many more Michael E Cohen who is a Certified Usability Analyst really as well as the author of numerous books on Apple products also loves a good mystery So he has done extensive research into the evolution of Apple's interfaces in an effort to explain how and why things are the way they are today and more importantly how you can find hidden controls and capabilities solve the puzzles of Apple's seemingly opaque interfaces and become a happier user in the process After an introduction to basic concepts of usability such as affordances or cues that tell you how to use a control Michael takes you on a fascinating journey through mysteriously complicated Mac interfaces such as menus keyboards mice and the desktop He then turns his attention to iOS iPadOS discussing the unique capabilities

and limitations of small screen touch oriented devices including gestures hidden buttons and inscrutable onscreen keyboards The book concludes with a chapter of crime fighting tips that help you unravel new perplexities as you encounter them Unlike most of our books the title of this one doesn't begin with the words Take Control of That's because the focus is more on why than on how to and it makes no attempt to be exhaustive Rather it's an explanation of some of the historical and technological factors that led to Apple's current user interfaces But don't worry you'll still learn tons of practical skills along with lots of tips about hidden or hard to discover features

iPhone: The Missing Manual David Pogue, 2007-08-06 As you'd expect of Apple the iPhone is gorgeous iPhone The Missing Manual is a book as breathtaking as its subject Teeming with high quality color graphics each custom designed page helps you accomplish specific tasks everything from Web browsing to watching videos Written by New York Times columnist and Missing Manual series creator David Pogue this book shows you how to get the most out of your new Apple iPhone The name iPhone may be doing Apple a disservice This machine is so packed with possibilities that the cellphone may actually be the least interesting part The iPhone is at least three products merged into one a phone a wide screen iPod and a wireless touch screen Internet communicator The iPhone's beauty alone may be enough for you to dig for your credit cards but its Mac OS X based software makes it not so much a smartphone as something out of the film Minority Report The real magic however awaits when you browse the Web You get to see the entire Web page on the iPhone's screen All of this is cooked up with Apple's traditional secret sauce of simplicity intelligence and whimsy Written by New York Times columnist and Missing Manual series creator David Pogue iPhone The Missing Manual shows you everything they need to know to get the most out of your new Apple iPhone Full of humor tips tricks and surprises this book teaches you how to extend iPhone's usefulness by exploiting its links to the Web as well as its connection to Macs or PCs how to save money using Internet based messages instead of phone calls and how to fill the iPhone with TV shows and DVDs for free

[How to Do Everything iPhone 4S](#) Guy Hart-Davis, 2011-12-22 Unleash the amazing features of your iPhone 4S Filled with handy tips and little known tricks How to Do Everything iPhone 4S shows you how to maximize the powerful capabilities of this revolutionary device Configure and customize your iPhone make calls video chat listen to music watch videos create and manage your iTunes library surf the Web take photos and video ask Siri for assistance use iCloud to store and access your content and much more You'll also learn how to connect your iPhone to your company's network via virtual private networking and to your company's Exchange Server for e mail and calendars Load your iPhone with music videos data and apps Connect to wireless networks at home at work and on the road Take crisp photos and video with the new eight megapixel camera Make phone calls video chat with FaceTime and use e mail and instant messaging Use iCloud to sync content seamlessly between your iPhone and other iOS devices Get help from Siri the voice controlled intelligent assistant Keep up to date with your calendars and contacts Create a great audio and video library for your iPhone and iTunes Use your iPhone for file backup storage and transfer Connect to your business network and to

Exchange Server Create edit and share business documents on your iPhone Sync your iPhone with multiple computers Troubleshoot your iPhone and iTunes **iPhone 4S Portable Genius** Paul McFedries,2011-11-02 no nonsense guide to getting everything your iPhone 4S has to offer Designed for devotees of the Apple digital lifestyle this guide presents key information for iPhone users in a hip straightforward way Packed with tips tricks and techniques to help you uncover and take advantage of every feature of the iPhone 4S this edition covers the newest features including iOS 5 Siri FaceTime video calling HD video recording the multitasking feature that lets you run multiple apps simultaneously and much more Portable Genius books cover key features of technology designed to support the digital lifestyle This handy small trim guide is packed with tips tricks and techniques to help you make the most of your iPhone 4S Spotlighting innovative ways to complete various tasks the book shows how to save time and hassle while taking full advantage of everything your iPhone 4S has to offer Offers tips and tricks for working with the newest features including iOS 5 Siri FaceTime HD video recording and editing multitasking and more Serious iPhone fans will find this book a must have as they enhance their digital lifestyle with the newest iPhone *Hospitality Finance and Accounting* Rob van Ginneken,2019-07-05 Hospitality Finance and Accounting provides a uniquely concise accessible and comprehensive introduction to hospitality finance and accounting from a managerial perspective By avoiding unnecessary jargon and focusing on the essentials this book offers a crucial breakdown of this often overly complex subject area The concise chapters cover the essential concepts ideas and formulas to be mastered within the hospitality industry including income statements balance sheets pricing and budgeting Each chapter is split into two sections theory and practice giving students practical insight into the everyday realities of the hospitality industry through case studies which show how theories are applied to a range of relevant scenarios Emphasis is placed particularly on the practices of revenue and budget management within the food and beverage industry This will be an essential introductory yet practical resource for all Hospitality students and future managers within the industry **PC World** ,2008-07 **The New Rules of Green Marketing** Jacquelyn Ottman,2017-10-19 For too long marketers of sustainable goods and services have targeted deep green consumers to promote their products and they have little to show for their efforts In this innovative book Jacquelyn Ottman shows how the green market has moved beyond such niche marketing and how marketers will find greater success promoting the inherent superior value of their offerings Greener products are now available within every industry and are a part of our everyday lives But they didn't get to be so ubiquitous just because they are better for the planet Whether they were promoted as such or not sales of green products have grown so fast because of the added value they provide health superior performance good taste cost effectiveness or simply convenience This central emphasis on primary benefits the new rules is critical to winning over the mainstream consumer and to driving overall organizational growth The New Rules of Green Marketing helps readers understand why value based sustainability marketing has become a critical organizational capacity and how readers can adopt this approach in their own

organizations Illustrated by examples from both international mainstream and the more niche deep green leaders who are showing everyone else the way the book provides practical strategies tools and inspiration for building every aspect of a credible value based green marketing strategy including How to use a proactive approach to sustainability to spur innovation How to frame environment related benefits with relevance to mainstream brands How to communicate with credibility and impact and avoid greenwashing How to team up with stakeholders to maximize outreach to consumers How to use a life cycle orientation to ensure the integrity of one s offerings How to best take advantage of recent technological advances in social media Drawing on the latest data from leading researchers and reflecting on learnings from Ottman s corporate clients and other pioneers including GE Nike HSBC Method Starbucks Timberland HP NatureWorks Philips Procter Gamble Stonyfield Farm and Wal Mart this book shows how market leaders are edging out the competition using effective value first marketing strategies This book captures the best of the author s previous groundbreaking books on green marketing and takes the content into the 21st century Whereas earlier works focused on readers who were less familiar with green initiatives this work squarely focuses on a new generation of marketers who likely themselves grew up with an appreciation of sustainability and who want and need to know how to connect effectively with mainstream consumers

Strategic Management Robert MacIntosh, Donald MacLean, Craig Robinson, 2023-04-06 Focusing on the practicalities of developing business strategy this textbook provides an intuitive approach to developing a strategic plan The authors share what they have learned through two decades of strategy work with a myriad of organisations presenting theory and delivering key insights into the strategist s role The authors demonstrate their unique Strategy Cycle approach which combines strategic logic in the form of detailed plans with the aesthetic creative and interpretive process of bringing a strategy to life by storytelling They examine familiar planning tools to identify where value truly lies while introducing new ideas and methods culminating in a simple and succinct 10 component strategy Visit the authors website at strategystory.co.uk

Reinvention Made Easy Jim Mathis, 2011-12-01 The new world of work requires tough love and tough questions to ask yourself Choose reinvention over extinction by facing hard business truths Self reinvention is easy Everybody can reinvent themselves in a challenging economy by incorporating the simple indisputable truths in Reinvention Made Easy But even the most creative leaders will find this a personally challenging and value changing read The economy doesn t go up or down it becomes different The realities of your business have changed forever Leaders manage the way they react to change The next year is probably the end of the way we will do business Your business purpose is not determined by you but by the needs or wants that are satisfied when the customer buys a product or service Effective market leaders see themselves from the customer s viewpoint To reinvent yourself you must answer these questions raised in Reinvention Made Easy When will the recession end Why don t people buy what I sell Why does my team hate me Why doesn t my teamwork always work How am I punishing my customers What is costing me more money than making me The answers are so uncomfortable you will be

forced to think your way to very last page **Monopoly Restored** Jack Lawrence Luzkow,2018-07-16 This book is a work of contemporary economic history focusing primarily on the US and the UK It shows that historically much of the wealth of the ultra wealthy has been based on inheritance tax evasion political influence or wage theft Today much of the wealth of the rentier class the super rich is based on income from ownership or control of scarce assets or assets artificially made scarce As a result the super rich reap much of their wealth from patents monopolies and subsidies Their banks retain the right to speculate on risky derivatives and their credit card companies are not limited by usury laws that reduce interest rates The super rich have lowered or escaped inheritance taxes shifted much of their income to lower taxed capital gains practiced wage theft fought minimum wage laws outsourced jobs and resorted to temps and contract labor to avoid unions and decent wages They use tax havens where trillions of dollars remain untaxed transfer profits of their intellectual and financial property to subsidiaries in low tax regimes and defend for profit health insurance that is unaffordable and inequitable for millions This book states in qualitative and quantitative terms how expensive the super rich have become why they are unsustainable for the rest of us and what the way forward to greater economic equality may be In sum the super rich are unaffordable Advances in Artificial Economics Frédéric Amblard,Francisco J. Miguel,Adrien Blanchet,Benoit Gaudou,2014-11-08 The book presents a peer reviewed collection of papers presented during the 10th issue of the Artificial Economics conference addressing a variety of issues related to macroeconomics industrial organization networks management and finance as well as purely methodological issues The field of artificial economics covers a broad range of methodologies relying on computer simulations in order to model and study the complexity of economic and social phenomena The grounding principle of artificial economics is the analysis of aggregate properties of simulated systems populated by interacting adaptive agents that are equipped with heterogeneous individual behavioral rules These macroscopic properties are neither foreseen nor intended by the artificial agents but generated collectively by them They are emerging characteristics of such artificially simulated systems **Living the 1.5 Degree Lifestyle** Lloyd Alter,2021-09-14 Stop thinking about efficiency and start thinking about sufficiency Living the 1.5 Degree Lifestyle reveals the carbon cost of everything we do identifying where we can make big reductions while not sweating the small stuff The international scientific consensus is that we have less than a decade to drastically slash our collective carbon emissions to keep global heating to 1.5 degrees and avert catastrophe This means that many of us have to cut our individual carbon footprints by over 80% to 2.5 tonnes per person per year by 2030 But where to start Drawing on Lloyd Alter's journey to track his daily carbon emissions and live the 1.5 degree lifestyle coverage includes What it looks like to live a rich and truly green life From take out food to bikes and cars to your internet usage finding the big wins ignoring the trivial and spotting marketing ploys The invisible embodied carbon baked into everything we own and why electric cars aren't the answer How to start thinking about sufficiency rather than efficiency The roles of individuals versus governments and corporations Grounded in meticulous

research and yet accessible to all Living the 1 5 Degree Lifestyle is a journey toward a life of quality over quantity and sufficiency over efficiency as we race to save our only home from catastrophic heating
