The topic of special education is rich in knowledge and pedagogy that covers multiple disciplines within the school environment. Many special educators complete graduate degrees and explore a variety of topics within the special education context; however, there is a need for more resources that provide essential knowledge to special education professionals. *New Considerations and Best Practices for Training Special Education Teachers* discusses best practices and strategies special education professionals require to become more proficient in teaching students with exceptional needs and addresses the most important components of the special education teacher's job. Serving as a guide of what a special educator must know to be effective within the classroom and providing an overview of the most important components of the special education teacher's job, the needs of the special educator along with new research in the field, this timely book covers a range of topics such as assistive technologies and special education law. It is ideal for special education teachers, industry professionals, guidance counselors, academicians, professors, researchers, practitioners, and students.

Constructivist Teaching by Heart Krista Calvert, Dana McMillan, 2024-06-03 This insightful book offers a modern take on the time-honored tradition of developmentally appropriate, child-centered constructivist philosophy of instruction. Teaching children one at a time yet all at once. The book provides a comprehensive road map to teaching that supports student engagement, child development, classroom environment, grouping and organization, authentic literacy instruction, and culturally informed practices. Through a series of practical chapter essays and examples, the authors push back against scripted curricula and one-size-fits-all school initiatives, offering instead rich examples and guiding questions to bring you closer to an authentic teaching approach that honors students and their learning. Designed for early childhood through third-grade teachers, principals, administrators, and pre-service students, *Constructivist Teaching by Heart* is essential reading for professional development, peer discussions, university coursework, individual study, and everyone on the journey to making children the heart of their classrooms.

Best Practices of Literacy Leaders Rita M. Bean, Allison Swan Dagen, 2011-10-27 Bringing together leading experts, this book presents the principles of effective literacy leadership and describes proven methods for improving instruction, assessment, and schoolwide professional development. The book shows how all school staff, including reading specialists and coaches, administrators, teachers, and special educators, can play an active role in nurturing a culture of collaboration and promoting student achievement. Best practices are identified for creating strong elementary and secondary literacy programs, differentiating instruction, supporting English language learners, utilizing technology, building home-school partnerships, and much more. User-friendly features include case examples, guiding questions, and engagement activities in each chapter.

Forum, 2008 Debates in Primary Education Virginia Bower, 2020-10-19 This powerful text encourages both pre-service and established teachers as well as teacher educators to engage with contemporary debates in primary education. Promoting a critical approach, the chapters explore a wide range of key themes, including the importance of values in primary education and the imperative for a curriculum which embraces the whole range of available subjects. At the same time, the

chapters are underpinned by a belief that children should be at the heart of all the decisions we make and that primary education should inspire a love of learning for life The book aims to support practitioners to make informed judgements and feel confident to argue their point of view with deeper theoretical knowledge and understanding thus increasing teacher agency and confidence in responding to complex educational and social dilemmas such as literacy levels and rising mental health concerns Chapters encompass both the macro aspects of primary education and more specialised debates on key topics such as reading mathematics languages early years education and the use of technology With annotated further reading and reflective questions this key text is essential reading for all those wanting to develop a better understanding of the issues that shape their practice including student teachers at both undergraduate and postgraduate level practising teachers engaged in continuing professional development and teacher educators
