Return of the Owl Garland Ladd, 2007-07-05 Preface This story is about the tribulations experienced by a typical American family during a one year period As is often the case the root cause for the Flynn family's conflict was the sin of passion Two questions plead for answers Does a typical family actually exist By definition typical means Conforming to the essential features of a species group and class pattern of action or behavior Therefore we can recognize similarities between families but each is atypical because of the unique personalities in each family and also the diverse circumstances in which they live We can further assume that no two people will react precisely the same to a given stimulus A corollary question is Can a truly unique event occur By definition unique means Being the only one of its kind A debater could claim uniqueness for any given event because circumstances were slightly different from all similar preceding events or because the people who participated were unique After considering those moot questions and counterpoints one can assume there is nothing new under the sun Every thought or action that man can initiate has probably occurred sometime during the history of mankind with only minor circumstantial and personality differences Therefore no thought event or action in an overall sense is totally unique Conversely every thought or action can claim uniqueness because of the uniqueness of individuals and their varied reactions

to the same stimulus It is claimed that no two snowflakes are identical thus possessing uniqueness Cannot the same be claimed by people The foregoing is a caveat that actions of the Flynn family in this novel are both typical and atypical as they deal with happenstances that seemingly take control of their fates Bizarre behavior and highly unusual situations create an intriguing year for the Flynns with unexpected twists and surprises that border on being unique by any definition This is a work of fiction Names characters places and incidents either are the product of the authors imagination or are used fictitiously for plot enhancement and reality Resemblance to actual person living or dead events or locales is entirely coincidental
