More Than a Wheelchair, More Than Hiv Ron Kudrako, 2009-07 What if you were told that you might possibly spend the rest of your life in a wheelchair Oh and you are HIV positive too And only a few seemed to care More Than a Wheelchair More than HIV is a story my story of survival of AIDS in the years after 2000 and having to cope with the challenges it presented me It is so disturbing and disheartening to see the growing indifference toward HIV and to have a younger generation oblivious and unconcerned by its possible resurgence as a life altering moment in their carefree lives I was told that I was going to die numerous times in November 1999 but I astounded them first by recovering and then with my determination and use of imagination in my therapies and exercises hoping to regain what I had lost at the beginning of my bout with PML Progressive Multifocal Leucoencephalopathy I usually explain PML as like having a stroke It is the simplest explanation The PML had taken so much from me which left me to re build my shattered life piece by piece and this book highlights the various obstacles I had to overcome to attain my goals Every barrier presented to me brought a new round of flashbacks of my childhood my career and my happy go lucky gay life As I improved every hurdle inspired me to write my thoughts Many things have changed since I first faced the onset of AIDS new forms of treatments new drugs and new hope as well as indifference and attitudes This story can be used for any physical challenge but gives a more human feel to the HIV AIDS crisis which seems to be almost forgotten which should be a source of concern to everyone How We

losses Nash reminds us that even as Black feminist writers get as close to loss as possible it remains a slippery object that troubles memory and eludes capture
