A Philosophy of Communication of Social Media Influencer Marketing Kati E. Sudnick, 2023-11-28 Social media influencer marketing emerged in Web 2.0 as a new form of celebrity endorsement in which the Internet famous create word of mouth marketing for brands and organizations on their personal social media pages blurring the line between organic and sponsored content for their followers This book explores social media influencer marketing through the lens of philosophy of communication with a praxis centered approach Kati E Sudnick utilizes a multitude of theoretical touchstones including Christopher Lasch's narcissistic culture Marshall McLuhan's global village Daniel Boorstin's human pseudo event Jacques Ellul's propaganda and the interplay between charismatic leadership and parasocial relationships in order to consider consequences surrounding Hannah Arendt's social condition which appears in hyper form within social media influencer marketing as a major integrated marketing communication tool Sudnick applies these concepts to three major case studies surrounding Audible BetterHelp and Fyre Festival drawing implications and conclusions for this integrated marketing communication tactic in an era entrenched within the banality of the social Ultimately the author argues for a more aware and conscientious public when it comes to engaging with influencers online Scholars of communication philosophy and media studies will find this book of particular interest

Advance Trends in Soft Computing Mo Jamshidi, Vladik Kreinovich, Janusz Kacprzyk, 2013-11-18 This book is the proceedings of the 3rd World Conference on Soft Computing WCSC which was held in San Antonio TX USA on December 16-18 2013 It presents state of the art theory and applications of soft computing together with an in depth discussion of current and future challenges in the field providing readers with a 360 degree view on soft computing Topics range from fuzzy sets to fuzzy logic fuzzy mathematics neuro fuzzy systems fuzzy control decision making in fuzzy environments image processing and many more The book is dedicated to Lotfi A Zadeh a renowned specialist in signal analysis and control systems research who proposed the idea of fuzzy sets in which an element may have a partial membership in the early 1960s followed by the idea of fuzzy logic in which a statement can be true only to a certain degree with degrees described by numbers in the interval [0, 1] The performance of fuzzy systems can often be improved with the help of optimization techniques e.g. evolutionary computation and by endowing the corresponding system with the ability to learn e.g. by combining fuzzy systems with neural networks The resulting consortium of fuzzy evolutionary and neural techniques is known as soft computing and is the main focus of this book

TikTok D. Bondy Valdovinos Kaye, Jing Zeng, Patrik Wikstrom, 2022-06-16 Since its acquisition and

rebranding in 2018 TikTok has become one of the fastest growing platforms in the world. Moreover, it's the first Chinese developed platform to find mainstream international success, carving its own niche in the global short video industry. In the first comprehensive exploration of TikTok, Kaye Zeng and Wikström provide a history of the emergent genre of short video and situate the platform within the cultures and controversies that have accompanied its dramatic growth. They provide an extensive overview of TikTok's functions and uses, the diverse markets in which the platform operates, and the issues of governance that have impacted its expansion. Once thought to be just for kids, the authors illustrate how TikTok is further transforming platform cultures and the dynamics of broader creative industries. TikTok, the authors argue, represents an evolutionary step in the way culture is produced and consumed on digital platforms. This timely book is essential reading for students and scholars in media and communication studies and for anyone who has been captivated by the global growth of TikTok and short video.
