The Uses and Abuses of Weaponized

Interdependence Daniel W. Drezner, Henry Farrell, Abraham L. Newman,2021-03-02 How globalized information networks can be used for strategic advantage Until recently globalization was viewed on balance as an inherently good thing that would benefit people and societies nearly everywhere Now there is growing concern that some countries will use their position in globalized networks to gain undue influence over other societies through their dominance of information and financial networks a concept known as weaponized interdependence In exploring the conditions under which China Russia and the United States might be expected to weaponize control of information and manipulate the global economy the contributors to this volume challenge scholars and practitioners to think differently about foreign economic policy national security and statecraft for the twenty first century The book addresses such questions as What areas of the global economy are most vulnerable to unilateral control of information and financial networks How sustainable is the use of weaponized interdependence What are the possible responses from targeted actors And how sustainable is the open global economy if weaponized interdependence becomes a default tool for managing international relations Mediaweek ,2008-10

Brandweek ,2007

Digital China: How To Prevent And Deal With PR Crises In China Ashley Dudarenok,2021-01-01 This book is meant to help brands avoid some common PR mistakes It s not an exhaustive list or the final word Things in China change quickly especially with a range of critical events overlapping in 2020 and 2021 However if you re aware flexible and ready to tackle the issues at hand you have every chance of success Here s an excerpt to give you a taste Effective Ways to Avoid Problems Make sure all employees are aware of your company s code of conduct values and social media policies During your on boarding process and at regular intervals after that employees should be made clearly aware of all policies and guidelines around expected standards of behavior both in person and online while at work and while off duty This includes how you expect people to approach issues like natural disasters local and global emergency situations and the consequences for breaching these policies Keep an eye on your staff and listen to fellow employees who report issues If an employee goes rogue and makes offensive statements stay on top of things and react promptly Don t wait Act swiftly and communicate in Chinese and English on multiple public channels to show your seriousness and sincerity In a market and society that moves as fast as China s people are less understanding of a slow pace And make sure you understand the pace Your country s fast might be China s slow How to do Damage Control Xiaomi Makes Lemons Out of Lemonade In 2015 Xiaomi co founder and CEO Lei Jun took the stage in New Delhi as Xiaomi launched one of its first products for the international market This was his first time speaking English at a launch event It s likely that he chose to do this to better communicate with an Indian audience and so he could talk to the audience directly rather than through an interpreter Given that his language skills were very basic this was a brave choice He approached the venture with gusto and good humor and laughed with the audience as early in his speech he had to correct himself quickly after he mistakenly said that he was very happy to be in China He gamely kept going and delivered his announcement that everyone in the audience would receive a Mi Band the brand s version of a Fitbit in clear but sometimes broken English to loud cheers from the audience Throughout the speech he loudly repeated the phrase Are you

OK several times seeming to mean Are you excited Even though his English wasn't accurate he was well received for a few reasons Not only were they all Mi fans happy to have the company's CEO on stage in front of them and grateful for a free gift the audience was made up largely of English second language speakers who understood the difficulties of learning a new language They seemed to appreciate Lei Jun's effort and willingness to make mistakes just to communicate with them personally The brand is hugely popular in India Although a minority seemed to view the speech as a PR fail it was embraced by Mi fans and the internet at large when it was remixed and autotuned to go with a cheery humble tune There was even a second remix done with a patriotic Chinese folk tune It went viral and became a hit on blogs industry news sites and social media spreading the Xiaomi brand name and some joy right along with it
