rise of digital technology business moves at unprecedented speeds and now moves at an exponential pace This pace is wreaking havoc to the business landscape as we know it Disruption has brought too big to fail companies to their knees in a matter of months and it has made some industries obsolete Any company or leader that doesn't move at an exponential pace will be crushed by the new massively transformative exponential organizations These organizations are quickly expanding their purpose and invading new industries every day Guides like Bill Gates Jeff Bezos Elon Musk and more continue to provide us a roadmap for how to navigate the exponential horizon Through a collection of nine keys of exponential leadership we have created a formula to navigate the disruption Exponential leadership combined with emerging technologies change and disruption will not only disrupt the world but will save it It is time for a new generation of leadership A leader that is purposeful conscious digital and above all exponential Join us for a journey to reimagine innovation

Capitalism, Power and Innovation Cecilia Rikap, 2021-03-29 In contemporary global capitalism the most powerful corporations are innovation or intellectual monopolies The book's unique perspective focuses on how private ownership and control of knowledge and data have become a major source of rent and power The author explains how at the one pole these corporations concentrate income property and power in the United States China and in a handful of intellectual monopolies particularly from digital and pharmaceutical industries while at the other pole developing countries are left further behind The book includes detailed empirical mappings of how intellectual monopolies develop and transform knowledge from universities and open source collaborations into intangible assets The result is a strategy that combines undermining the commons through privatization with harvesting from the same commons The book ends with provoking reflections to tilt the scale against intellectual monopoly capitalism and arguing that desired changes require democratic mobilization of workers and citizens at large This book represents one of the first attempts to capture the contours of an emerging new era where old perspectives lead us astray and the old policy toolbox is hopelessly inadequate This is true for the idea that the best or only way to promote innovation is to transform knowledge into private property It is also true for anti-trust policies focusing exclusively on consumer prices The formation of global infrastructures that lead to natural monopolies calls for public rather than private ownership Scholars and professionals from the social sciences and humanities in particular economics sociology political science geography educational science and science and technology studies will enjoy a clear and all embracing depiction of innovation dynamics in contemporary capitalism with a particular focus on asymmetries between actors regions and topics In fact its topical issue broadens the book's scope to those curious about how innovation networks shape our world

Bulletproof Decisions Ruben Ugarte, 2021-12-15 We are told from a young age that we should strive to make the right decisions but we aren t taught exactly how to do this Every day we make over 35 000 decisions in our personal and professional lives How many of those decisions do we get right This book will help business executives systematically tackle these 35 000 decisions Executives are forced to make critical decisions that impact their

lives their employees lives and the lives of their customers Decisions like what products to create who should be hired and what divisions to shut down are all commonplace in the executive suite This book offers three strategies for dealing with decisions problem solving techniques routines and decision making frameworks Each strategy is designed to help readers achieve more clarity gain time back and improve the quality of their decisions The first one focuses on helping readers solve the right problem instead of wasting time on the wrong one The second strategy helps deal with decisions that need to be made once but can then be executed regularly The third and final strategy provides a three step framework for making the most important decisions in their lives The focus of the author s work is on helping readers use data to make better decisions This book gives readers the tools to convert the insights they learn from their data into actionable decisions Clutch Leadership Alan T. Belasen, Ph.D., Barry Eisenberg, Ph.D., 2025-10-20 Today s organizational leaders contend with a considerable array of potentially profound disruptive forces Emerging information management and creation tools like AI and robotics in conjunction with economic swings global manufacturing shifts and political instabilities are creating immeasurable effects on business strategies and leadership practices Transforming short term challenges into long term opportunities requires rising to the occasion or what we call clutch leadership We believe that all leaders have it in them to be clutch leaders Such is the thrust of this book Clutch leaders have the skills to manage disruptions break down silos and align people around a compelling vision of success that represents a shift from strategic fit matching resources and capabilities with opportunities to strategic stretch leveraging industry positioning to create competitive advantage They create a productive and motivating sense of urgency and high aspiration in the organization during times of increased stakes Clutch leaders build consensus in support of high stakes decisions and model the way with a combination of confidence capability and conviction Focusing on impact during disruptive times enables clutch leaders to harness the full potential of organizational resources beyond strategic fit even if it requires a temporary push of skills and behaviors to extremes or taking on additional risks and opportunities strategic stretch What makes clutch leadership unique is the focus on temporary imbalance the suspension of trade offs between staying in the comfort zone versus playing to one s tried and true strengths until the gap is closed or until the new vision and reality are realigned through innovation and leverage Clutch leaders distinctive ability to balance high stress big picture thinking with composure agility attention to detail and strong logical reasoning with communication skills and empathy allows them to navigate fast paced challenging situations quickly and successfully Numerous case studies are also included to illustrate innovative leadership techniques and applications
