Reinventing Management When There's No More Business as Usual Rajeev Peshawaria, 2017-10-27 From taxi rides hotel stays car driving to communicating and paying everything we knew as normal has changed beyond recognition To lead effectively in today s brave new world you have to question EVERYTHING For the first time in human history knowledge is free and almost every boundary to communication has been lifted This open source world has permanently altered the business landscape And you can count on the fact that the pace of change will only accelerate Yet companies still rely on management tools and practices that were at best mildly effective in their heyday In *Open Source Leadership* Rajeev Peshawaria reveals the vision insight and practices he has used to help some of today s largest and most influential organizations meet the open source world head on It all starts with asking the right questions What s the most effective leadership style in a world of 24 7 connectivity How has the very concept of leadership changed in the open source era How

do you inspire and reward performance in the gig economy How do you measure engagement and effectively address the gaps How can you lead innovation quickly and continuously Peshawaria reveals the answers to these questions and they will surprise you Based on his company's groundbreaking research spanning 28 countries he concludes that traditional industrial age thinking needs a massive upgrade to successfully navigating the brave new world of business Open Source Leadership rewrites the rules of management giving you a unique look at the most common misperceptions illusions and downright wrong information you've been getting about what works and what doesn't It provides a new counterintuitive model for seizing competitive edge in any industry Among other issues the book argues convincingly that positive autocracy must replace democratic leadership talent and innovation are abundant not scarce early identification of high potentials is counterproductive and setting employees free to do as little as they want will increase productivity The Economist, 2012

something about the way we pursue success that isn't true. We've been told that working harder and smarter is the only way to succeed in business and life. But it's not true. Hustle culture is causing burnout and pain in our lives, making us feel divided. What if instead we focused on working creatively with others? And asked: How can we shape cultures people love? There is hope in co-creation. *Brave Together* is a deep exploration into how we can live and lead as co-creators, filled with unexpected stories, powerful principles, and a future-oriented framework. The authors have pressure-tested this work with startups and Fortune 500s, including Apple. Coaching leaders how to reimagine their approach to culture, converting creative ideas into billion-dollar solutions with the help of these patterns. *The Mirror Test*: Take ownership of your reality and your creative identity. *The Hero's Sacrifice*: Break free of ego to connect with others in inspiring ways. *Become the Future*: Create a synthesis manifesting the best in mind, heart, and spirit. Chris Deaver and Ian Clawson have written a handbook that challenges the status quo approach to leadership, work, and culture. It offers the path to a bright future that isn't self-made but shared.
