The Christmas Bridge Brian Spaeth, 2010-09-26 The Christmas Bridge is the most important statement to ever be made on the nature of holidays and adulthood and giant bridges that have Christmas themes and decorations and activities It's 2020 and These United States of America has undergone a dramatic series of changes in the four years since the election of Bruce Willis as President The flying car is now the one true future of airborne leisure and transportation making the need for airplanes traditional bridges and all forms of ground based travel irrelevant Bigger than the logistical and metric based changes of this strange new world are the extreme holiday based initiatives which include the outlawing of none other than Christmas Day When a charismatic life drifter and a one time acting icon are tasked by Santa Claus himself to build a 200 mile long haven for those who still want some Christmas to happen people's souls get healed or whatever You can tell how timeless the story is because it takes place precisely in 2020
