Dear Mr. Nelson:

With 12% of Miami's businesses falling victim to cyber-attacks, I'm moved to fortify their digital surroundings as your next cyber security analyst at Akamai Technologies. My perspective, molded during my time at a Miami-based firm that barely survived a brutal cyber onslaught, has guided my path into cyber security over the past seven years.

I implemented network security monitoring at Mercury Development using top-tier tools like Wireshark and Suricata. My initiatives improved threat detection rates by 26%, reinforcing our digital environment's safety and reliability.

My tenure at EarthLink honed my skills in firewall configuration and management. I utilized Fortinet to optimize firewall rules, which resulted in a 33% decrease in unauthorized network access attempts.

As a security specialist at Securitize, a Florida-based fintech company, I employed vulnerability assessment and scanning tools, such as Nexpose and Nessus, for regular system checks. This proactiveness fostered a 38% reduction in unmitigated vulnerabilities.

The thought of fortifying the digital frontiers of a global service provider and the opportunity to safeguard the online experiences of countless internet users worldwide is nerve-tingling, to say the least. I look forward to discussing how my skills and experiences can reinforce Akamai's cybersecurity capabilities. Thank you.

Sincerely,

Adrian Bergman
