Textbooks, Testing, Training: How We Discourage Thinking Stephen S. Willoughby, 2014-12-31 Stephen S Willoughby has taught mathematics for 59 years and he has seen everything Some of it has annoyed him some has inspired him This little book is something of a valedictory and he shares some parting thoughts as he contemplates the end of his teaching career Willoughby has strong cogent and mostly negative opinions about textbooks standardized testing and teacher training These opinions have been forged in the cauldron of the classroom of a deeply caring teacher They might not please readers but they ought to make them think They should spark needed debate in our community Ultimately this is a human tale with rough parallels to Hardy's A Mathematician's Apology replace mathematicians with teachers perhaps Every teacher will sympathize with Willoughby's frustrations and empathize with the humanity and compassion that animated his life's work and that beat at the center of this book *Das Erstlesebuch - eine unterschätzte Subgattung*, 2025-07-31 Die Ergebnisse aktueller Lesevergleichsstudien sind alarmierend Die Frage danach wie Kinder beim Lesenlernen gefördert und zugleich für das Lesen motiviert werden können ist daher prägnanter denn je Hier rücken Erstlesebücher als Subgattung der Kinderliteratur in den Fokus Sie richten sich explizit an Lesanfängerinnen und -anfänger und wollen sowohl grundlegende Lesekompetenzen ausbauen als auch positive Leseerfahrungen ermöglichen Ob sie das tatsächlich können wird in der Literatur und Lesedidaktik rege diskutiert auch weil es bislang keine Studien zur genauen Beschaffenheit dieser Bücher gibt Sandra Siewert untersucht erstmals systematisch die Potenziale des Erstlesebuchs für die Leseförderung Kann es dem Anspruch gerecht werden positive Leseerfahrungen zu begünstigen Indem Siewert die Lesbarkeit der Texte ihr narratives Profil sowie ihre Literarizität analysiert zeigt sie dass eine komplexitätsreduzierte und leserleichternde Textgestaltung durchaus mit Literarizität vereinbar sein kann Didaktische Funktion und literarästhetisches Erleben müssen im Erstlesebuch folglich kein Widerspruch sein sondern lassen sich vielmehr produktiv miteinander verbinden English Language Teaching: Issues and Challenges S. Udhayakumar, K. Vellaichamy, English as a global language plays a vital role in every one's life Students think that English language opens the door of the world for their future life But as an alien language the learners find it very difficult to understand the language Not only to understand but to read write and speak A social language may be learnt quickly as there are many chances to encounter with public people who speak this as their mother tongue or a community language But English is not a social language so all learners face difficulty This difficulty may be eased out by adopting different methodology for learning English language This could be possible only for educational institutions In India and non English speaking countries English could be learnt only in schools colleges and Universities So it is very important that methodology for English teaching should be often checked and updated Earlier chalk and talk method was adopted In due course it underwent many changes and it now has become student centric and the teacher has become a facilitator for the students in teaching learning process The classroom once a four wall room with a single board and small

chalk piece has now become a smart classroom with white smart board and an electronic pen stick Even an LKG classroom is connected to the world and with one click the whole world comes into the classroom through internet services and displayed on the white board If Shakespeare is taught his manuscript of the text is displayed and his life is shown as a video film If the Universe is taught to the students the video of the Universe is shown and the real scientists are explaining the doubts of the students and they chat with the learners As we are living in such a modern and advanced period teaching methodology for English teaching should be updated to meet the challenges of today s world Education is the only way for the humanity to live happily and peacefully Education connects the whole world for the benefit of the human race which is not possible for animal beings and other creatures also In this process English language plays a crucial role and an edition of book chapters may benefit the student and teaching community to update the teaching methodology of English language So this edition is brought to fulfill the need of the current society
