The Arts and Computational Culture: Real and Virtual Worlds Tula Giannini, Jonathan P. Bowen, 2024-06-27 A Paradigm Shift and Defining Moment in the 21st Century Fuelled by the convergence of computational culture artificial intelligence and machine learning arts and culture are experiencing a revolutionary moment poised to change human life and society on a global scale There is the promise of the Metaverse with extended reality XR and immersive virtual worlds For the first time reality and virtuality are merging with these new developments The proposed book is among the first to address the context complexity and impact of this multi faceted subject in detail for up close and personal engagement of the reader while evoking a landscape view As digital culture evolves to computational culture we embark on a digital journey from 2D to 3D where flat computer screens for the Internet and smart phones are evolving into immersive digital environments This is while new technologies and AI are increasingly embedded in every aspect of daily life the arts and education *AI Aesthetics* Jan-Noël Thon, Lukas R.A. Wilde, 2025-09-09 This volume investigates the intersection of generative AI and media aesthetics from an interdisciplinary perspective Combining in depth theoretical reflection with a diverse selection of case studies its authors explore the aesthetic forms of AI generated medial objects as well as the cultural imaginaries that the latter draw upon Bringing together a group of scholars from various geographic and disciplinary backgrounds the chapters move within and across different conceptualizations of AI aesthetics that can be located in between an aesthetics as artistics that is primarily concerned with aesthetic judgments related to skill and connoisseurship and an aesthetics as aesthetics that identifies all kinds of embodied perception as its object The book thus reflects on both the theoretical and the methodological implications of AI aesthetics while also demonstrating that this is still very much an emerging research field and that no dominant conceptualization of AI aesthetics has yet emerged Considering its decidedly international and interdisciplinary scope *AI Aesthetics* *AI Generated Images between Artistics and Aesthetics* will appeal to scholars and students within media studies cultural studies literary studies philosophy art history visual culture studies digital humanities and critical AI studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Empire of AI* Karen Hao, 2025-05-20 A NEW YORK TIMES BESTSELLER An eye opening account of the tech arms race shaping out planet from an award winning journalist and AI insider to the world of Sam Altman and OpenAI When longtime AI expert and journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission it was meant its leader Sam Altman told us to act as a check against more purely market forces But the core truth of this massively disruptive sector is that it requires an unprecedented amount of proprietary resources the compute power of scarce high end chips the sheer volume of data that needs to be amassed at scale the humans on the ground cleaning it up for sweatshop wages throughout the Global South and a truly alarming spike in the need for energy and water

underlying everything We have entered a new ominous age of empire with OpenAI setting a breakneck pace as a small group of the most valuable companies in human history try to chase it down In exhilarating prose and with unparalleled access to those closest to Sam Altman Hao recounts the meteoric rise of OpenAI and shows us the sinister impact that this industry is having on society

Equipping for Global Mission Linda P. Saunders, Gregory Mathias, Edward L. Smith, 2024-08-13 From Cognitive Teaching to Connected Learning Given the landscape of global Christianity and the variety of approaches to theological and missiological training today how do we equip the global church for the mission of God Should mission organizations or sending churches conduct their own in-house training What is the role of Bible colleges and seminaries in equipping for mission today What about informal approaches to theological and ministry training *Equipping for Global Mission* offers insights from seasoned scholars and practitioners Beginning with theological convictions and practical reflections our authors make a case for what equipping for mission could look like in the present global church Case studies from India China North America and Britain further challenge the reader to reflect on this critical issue The full scope of educating for mission is far too broad of a task for any single organization This is why the contributors serve the church so well by enlarging a much needed conversation This book is a clarion call to all who care about missions and the global church Join world leaders in reshaping missions education today by using the practical and strategic wisdom in these pages

Popular Photography, 1983-09 Algebraic Geometry J. S. Milne, 2012 **Our Biggest Fight** Frank H. McCourt, Jr., 2024-03-12 NATIONAL BESTSELLER The internet as we know it is broken Here's how we can seize back control of our lives from the corporate algorithms and create a better internet before it's too late In the spirit of Thomas Paine's *Revolution and Common Sense* this manifesto challenges us to create new digital architectures to safeguard

democracy Walter Isaacson 1 New York Times bestselling author of Elon Musk It was once a utopian dream But today's internet despite its conveniences and connectivity is the primary cause of a pervasive unease that has taken hold in the U S and other democratic societies It's why youth suicide rates are rising why politics has become toxic and why our most important institutions are faltering Information is the lifeblood of any society and our current system for distributing it is corrupted at its heart Everything comes down to our ability to communicate openly and trustfully with each other But thanks to the dominant digital platforms and the ways they distort human behavior we have lost that ability while at the same time we've been robbed of the data that is rightfully ours The roots of this crisis argue Frank McCourt and Michael Casey lie in the prevailing order of the internet In plain but forceful language the authors a civic entrepreneur and an acclaimed journalist show how a centralized system controlled by a small group of for-profit entities has set this catastrophe in motion and eroded our personhood And then they describe a groundbreaking solution to reclaim it rather than superficial patchwork regulations we must reimagine the very architecture of the internet The resulting third generation internet would replace the status quo with a new model marked by digital property rights autonomy and ownership Inspired by historical calls to action like Thomas Paine's Common Sense Our Biggest Fight argues that we must act now to embed the core values of a free democratic society in the internet of tomorrow Do it right and we will finally properly unlock its immense potential

Algebraic Geometry Daniel Bump, 1998 This is a graduate level text on algebraic geometry that provides a quick and fully self-contained development of the fundamentals including all commutative algebra which is used A taste of the deeper theory is given some topics such as local algebra and ramification theory are treated in depth The book culminates with a selection of topics from the theory of algebraic curves including the Riemann-Roch theorem elliptic curves the zeta function of a curve over a finite field and the Riemann hypothesis for elliptic curves Popular Photography, 1993-04 **Cross Cultural**
